DNP Select Income Fund Inc.

4th

Annual Report

October 31, 2017

Fund Distributions and Managed Distribution Plan: DNP Select Income Fund Inc. (the "Fund") has been paying a regular 6.5 cent per share monthly distribution on its common stock since July 1997. In February 2007, the Board of Directors adopted a Managed Distribution Plan, which provides for the Fund to continue to make a monthly distribution on its common stock of 6.5 cents per share. Under the Managed Distribution Plan, the Fund will distribute all available investment income to shareholders, consistent with the Fund's primary investment objective. If and when sufficient investment income is not available on a monthly basis, the Fund will distribute long-term capital gains and/or return capital to its shareholders in order to maintain the steady distribution level that has been approved by the Board. If the Fund estimates that it has distributed more than its income and capital gains in a particular period, a portion of your distribution may be a return of capital. A return of capital may occur, for example, when some or all of the money that you invested in the Fund is paid back to you. A return of capital distribution does not necessarily reflect the Fund's investment performance and should not be confused with "yield" or "income."

To the extent that the Fund uses capital gains and/or return of capital to supplement its investment income, you should not draw any conclusions about the Fund's investment performance from the amount of the Fund's distributions or from the terms of the Fund's Managed Distribution Plan.

Whenever a monthly distribution includes a capital gain or return of capital component, the Fund provides you with a written statement indicating the sources of the distribution and the amount derived from each source. As the most recent monthly statement from the Fund indicated, the cumulative distributions paid this fiscal year to date through November 10 were estimated to be composed of net investment income, capital gains and return of capital.

The amounts and sources of distributions reported monthly in statements from the Fund are only estimates and are not provided for tax reporting purposes. The actual amounts and sources of the amounts for tax reporting purposes will depend upon the Fund's investment experience during the remainder of its fiscal year and may be subject to changes based on tax regulations. The Fund will send you a Form 1099-DIV for the calendar year that will tell you how to report these distributions for federal income tax purposes.

The Board reviews the operation of the Managed Distribution Plan on a quarterly basis, with the most recent review having been conducted in December 2017, and the Adviser uses data provided by an independent consultant to review for the Board the Managed Distribution Plan annually. The Board may amend, suspend or terminate the Managed Distribution Plan without prior notice to shareholders if it deems such action to be in the best interests of the Fund and its shareholders. For example, the Board might take such action if the Managed Distribution Plan had the effect of shrinking the Fund's assets to a level that was determined to be detrimental to Fund shareholders. The suspension or termination of the Managed Distribution Plan could have the effect of creating a trading discount (if the Fund's stock is trading at or above net asset value), widening an existing trading discount, or decreasing an existing premium.

The Managed Distribution Plan is described in a Question and Answer format on your Fund's website, www.dnpselectincome.com, and discussed in the section of management's letter captioned "About Your Fund." The tax characterization of the Fund's distributions for the last 5 years can also be found on the website under the "Tax Information" tab.

December 14, 2017

Dear Fellow Shareholders:

Performance Review: Consistent with its primary objective of current income and long-term growth of income, and its Managed Distribution Plan, the Fund declared twelve monthly distributions of 6.5 cents per share of common stock during the 2017 fiscal year. The 6.5 cent per share monthly rate, without compounding, would be 78 cents annualized, which is equal to 6.93% of the October 31, 2017, closing price of $11.25 per share. Please refer to the inside front cover of this report and the portion of this letter captioned "About Your Fund" for important information about the Fund and its Managed Distribution Plan.

Your Fund had a total return (income plus change in market price) of 20.2% for the year ended October 31, 2017, which is higher than the 13.9% total return of the composite of the S&P 500® Utilities Index and the Bloomberg Barclays U.S. Utility Bond Index, weighted to reflect the stock and bond ratio of the Fund. In comparison, the S&P 500® Utilities Index — a stock-only index — had a total return of 15.4% over that same period.

On a longer-term basis, as of October 31, 2017, your Fund had a five-year annualized total return of 10.9% on a market value basis, which is closely in line with the 11.1% return of the composite of the S&P 500® Utilities Index and the Bloomberg Barclays U.S. Utility Bond Index, weighted to reflect the stock and bond ratio of the Fund. In comparison, the S&P 500® Utilities Index had an annualized total return during that period of 12.5%.

The table below compares the performance of your Fund to various market benchmarks. It is important to note that the composite and index returns referred to in this letter include no fees or expenses, whereas the Fund's returns are net of expenses.

Total Return[1]
For the period indicated through October 31, 2017

	One Year	Three Years (annualized)	Five Years (annualized)
DNP Select Income Fund Inc.			
Market Value[2]	20.2%	10.8%	10.9%
Net Asset Value[3]	15.0%	7.8%	12.1%
Composite Index[4]	13.9%	9.7%	11.1%
S&P 500® Utilities Index[4]	15.4%	10.5%	12.5%
Bloomberg Barclays U.S. Utility Bond Index[4]	3.1%	4.2%	3.5%

1 Past performance is not indicative of future results. Current performance may be lower or higher than performance in historical periods.

2 Total return on market value assumes a purchase of common stock at the opening market price on the first business day and a sale at the closing market price on the last business day of the period shown in the table and assumes reinvestment of dividends at the actual reinvestment prices obtained under the terms of the Fund's dividend reinvestment plan. In addition, when buying or selling stock, you would ordinarily pay brokerage expenses. Because brokerage expenses are not reflected in the above calculations, your total return net of brokerage expenses would be lower than the total return on market value shown in the table. Source: Administrator of the Fund.

3 Total return on NAV uses the same methodology as is described in note 2, but with use of NAV for beginning, ending and reinvestment values. Because the Fund's expenses (ratios detailed on page 14 of this report) reduce the Fund's NAV, they are already reflected in the Fund's total return on NAV shown in the table. NAV represents the underlying value of the Fund's net assets, but the market price per share may be higher or lower than NAV. Source: Administrator of the Fund.

4 The Composite Index is a composite of the returns of the S&P 500® Utilities Index and the Bloomberg Barclays U.S. Utility Bond Index (formerly known as the Barclays U.S. Utility Bond Index), weighted to reflect the stock and bond ratio of the Fund. The indices are calculated on a total return basis with dividends reinvested. Indices are unmanaged; their returns do not reflect any fees, expenses or sales charges; and they are not available for direct investment. Performance returns for the S&P 500® Utilities Index and Bloomberg Barclays U.S. Utility Bond Index were obtained from Bloomberg LP.

Natural Disasters and the Impact on Your Fund's Holdings: Autumn in the U.S. was marred by natural disasters, from hurricanes in the South to wildfires in northern California. The aftermath of these disasters has been deeply felt at the economic and, more importantly, humanitarian levels. Despite extensive damage in those areas, Hurricane Harvey in Texas and Hurricane Irma in Florida had limited impact on the electric utility companies in the Fund's portfolio, CenterPoint Energy (Houston) and NextEra Energy (Florida Power & Light). That is due to the companies' excellent preparation ahead of the storms, years of investment in the utility network and the favorable regulatory environments permitting recovery of storm-related costs.

With respect to the Fund's midstream energy holdings, it is interesting to note that oil and energy stock prices actually rallied as the hurricanes moved through Texas and Florida. Hurricane Harvey had a major impact on both refining and chemical capacity in the Gulf Coast, knocking roughly 50% of Gulf Coast capacity temporarily off-line. However, there was surprisingly little damage in the midstream energy space, and investors were quick to look through any short-term negative impacts. Hurricane Irma mostly bypassed the energy infrastructure in the Gulf Coast, so there was no lasting effect.

The northern California wildfires were a different story, with the stock price of the Fund's investment in PG&E Corp. (San Francisco) falling significantly over the course of three days. While the extent of the damage caused by the wildfires was enormous, similar to the damage caused by the hurricanes, the difference in the market's reaction was due to California's legal doctrine of "inverse condemnation." That doctrine allows owners of private property who have suffered losses attributable to public utilities to bring damage claims against the utilities, regardless of whether the utility was negligent or at fault. Claimants simply need to prove mere causation — that the damage was caused by the utility. (A possible example could be if high winds knock over a power line, causing a fire.) Under inverse condemnation, the state effectively uses the utility as a means to spread the cost of wildfires across the customer base, assuming that the California Public Utilities Commission (CPUC) grants the utility rate increases to recover the amounts it has paid to satisfy its inverse condemnation liability.

It will take months to investigate the fires and establish the precise causes. Determination of PG&E's liability and potential rate increases to enable PG&E to recover any damages it is required to pay will take much longer, likely years. Critics of the utilities have already proposed legislation that would, in effect, prevent any utility from recovering costs incurred as a result of inverse condemnation by taking away the CPUC's discretion to allow such cost recovery.

We believe the CPUC is aware that financially weakening the utilities would impede their ability to modernize the electric grid and meet carbon reduction targets and would set a troubling precedent for future investment in the state. We are concerned, however, that there will be substantial political pressures on the CPUC to prevent utilities from passing on the costs of inverse condemnation to their customers. The effect would be to shift the entire burden of these disaster-related costs onto investors in utility companies, which we believe would be unfair. Rather, we would urge both politicians and regulators to allow fair recovery of these costs, so that utilities will be equipped to continue investing in their state. At this point, PG&E's stock price is reflecting the market's expectation that PG&E will bear the brunt of significant liabilities. We are hopeful that the ultimate outcome will be less onerous, but clarity and recovery will take time.

U.S. Monetary Policy: In December of 2015, the Federal Open Market Committee (FOMC), the committee within the Federal Reserve that sets domestic monetary policy, began to slowly reverse the highly accommodative policy of the previous seven years, when it raised the target range for the federal funds rate for the first time in almost a decade. Since that time, the target range for the federal funds rate has been raised five times, with the most recent change coming on December 13, 2017 when it was raised to a range of 1.25% to 1.50%. As a result, investors are starting to believe that the era of unprecedented U.S. monetary stimulus may finally be coming to an end.

Nine years after the start of the recession, the U.S. economy remains on track to experience steady, albeit moderate, growth over the next few quarters. Although we expect a strengthening job market, improving housing sector and low energy prices to provide continued support for consumers, we believe that meager wage growth, modest global growth and increased fiscal uncertainty are likely to limit U.S. growth and keep the recovery slow and uneven.

Based on this economic backdrop, the debate over the FOMC's ability to raise the federal funds target rate to a more normal rate is likely to continue. As a result, the fixed income market could remain highly volatile and reactive to the tone of economic data. In the near term, we expect a measured U.S. economic recovery and relatively low global interest rates to limit upward pressure on U.S. Treasury yields. Over the longer term, a self-sustaining economic recovery, rising inflation expectations and growing budget deficits could set the stage for a sustained and meaningful rise in interest rates.

Board of Directors Meeting: At the regular September 2017 Board of Directors' meeting, the Board declared the following monthly dividends:

Cents Per Share	Record Date	Payable Date
6.5	October 31	November 10
6.5	November 30	December 11
6.5	December 29	January 10

At the regular December 2017 Board of Directors' meeting, the Board declared the following monthly dividends:

Cents Per Share	Record Date	Payable Date
6.5	January 31	February 12
6.5	February 28	March 12
6.5	March 29	April 10

Also at the December Board of Directors meeting, the Board appointed Connie M. Luecke as Vice President and Chief Investment Officer of the Fund, effective January 1, 2018. Ms. Luecke has been with the Investment Adviser for over 25 years, working closely with Nathan I. Partain, who has served as the Fund's Chief Investment Officer since 1998. Ms. Luecke will continue to collaborate with Mr. Partain (who will continue as President, CEO and a director of the Fund) on the day-to-day investment strategy and operations for the Fund. More information about Ms. Luecke is included in the "Officers of the Fund" section of this report.

About Your Fund: The Fund seeks to achieve its investment objectives by investing primarily in the public utility industry. Under normal market conditions, more than 65% of the Fund's total assets are invested in a diversified portfolio of equity and fixed income securities of public utility companies engaged in the production, transmission or distribution of electric energy, gas or telephone services. The Fund does not use derivatives and has no investments in complex or structured investment vehicles.

The Fund seeks to provide investors with a stable monthly dividend that is primarily derived from current fiscal year earnings and profits. The Investment Company Act of 1940 and related SEC rules generally prohibit investment companies from distributing long-term capital gains more often than once in a twelve-month period. However, in 2008, the SEC granted the Fund's request for exemptive relief from that prohibition, and the Fund is now permitted, subject to certain conditions, to make periodic distributions of long-term capital gains as frequently as twelve times a year. In connection with the exemptive relief, in February 2008 the Board of Directors reaffirmed the current 6.5 cent per share monthly distribution rate and formalized the monthly distribution process by adopting a Managed Distribution Plan (MDP). The Board reviews the operation of the MDP on a quarterly basis, with the most recent review having been conducted in December 2017, and the Adviser uses data provided by an independent consultant to review for the Board the MDP annually. The MDP is described on the inside front cover of this report and in a Question and Answer format on the Fund's website, www.dnpselectincome.com.

The use of leverage enables the Fund to borrow at short-term rates and invest in higher yielding securities. As of October 31, 2017, the Fund's total leverage consisted of $300 million of floating rate preferred stock, $300 million of fixed rate secured notes and $400 million of floating rate secured debt outstanding under a committed loan facility. On that date the total amount of leverage represented approximately 26% of the Fund's total assets. The amount and type of leverage used is reviewed by the Board of Directors based on the Fund's expected earnings relative to the anticipated costs (including fees and expenses) associated with the leverage. In addition, the long-term expected benefits of leverage are weighed against the potential effect of increasing the volatility of both the Fund's net asset value and the market value of its common stock. Historically, the tendency of the U.S. yield curve to exhibit a positive slope (i.e., long-term rates higher than short-term rates) has fostered an environment in which leverage can make a positive contribution to the earnings of the Fund. There is no assurance that this will continue to be the case in the future. A decline in the difference between short-term and long-term rates could have an adverse effect on the income provided from leverage. If the Fund were to conclude that the use of leverage was likely to cease being beneficial, it could modify the amount and type of leverage it uses or eliminate the use of leverage entirely.

Along with the influence on the income provided from leverage, the level of interest rates can be a primary driver of bond returns, including the return on your Fund's fixed income investments. For example, an extended environment of historically low interest rates adds an element of reinvestment risk, since the proceeds of maturing bonds may need to be reinvested in lower yielding securities. Alternatively, a sudden or unexpected rise in interest rates would likely reduce the total return of fixed income investments, since higher interest rates could be expected to depress the valuations of fixed rate bonds held in a portfolio.

Maturity and duration are measures of the sensitivity of a fund's fixed income investments to changes in interest rates. More specifically, duration refers to the percentage change in a bond's price for a given change in rates (typically +/- 100 basis points). In general, the greater the average maturity and duration of a portfolio, the greater is the potential percentage price volatility for a given change in interest rates. As of October 31, 2017, your Fund's fixed income investments had an average maturity of 6.2 years and duration of 4.3 years, while the Bloomberg Barclays U.S. Utility Bond Index had an average maturity of 15.1 years and duration of 10.0 years.

In addition to your Fund's fixed income investments, the income-oriented equity investments held in your Fund can be adversely affected by a rise in interest rates. However, while rising interest rates generally have a negative impact on income-oriented investments, if improved growth accompanies the rising rates, the impact can be mitigated.

As a practical matter, it is not possible for your Fund's portfolio of investments to be completely insulated from unexpected moves in interest rates. Management believes that over the long term, the conservative distribution of fixed income investments along the yield curve and the growth potential of income-oriented equity holdings, positions your Fund to take advantage of future opportunities while limiting volatility to some degree. However, a sustained and meaningful rise in interest rates from current levels would have the potential to significantly reduce the total return of leveraged funds holding income-oriented equities and fixed income investments, including the DNP Fund. A significant rise in interest rates would likely put downward pressure on both the net asset value and market price of such funds.

		9,525,573
	Total Bonds (Cost $377,491,971)	413,531,553

TOTAL INVESTMENTS—133.8% (Cost $2,854,514,950)	3,839,650,095
Secured borrowings—(13.9)%	(400,000,000)
Secured notes—(10.5)%	(300,000,000)
Mandatory Redeemable Preferred Shares at liquidation value—(10.5)%	(300,000,000)
Other assets less other liabilities—1.1%	30,890,667
NET ASSETS APPLICABLE TO COMMON STOCK—100.0%	$2,870,540,762

(a) All or a portion of this security has been pledged as collateral for borrowings and made available for loan.

(b) All or a portion of this security has been loaned.

The percentage shown for each investment category is the total value of that category as a percentage of the net assets applicable to common stock of the Fund.

The accompanying notes are an integral part of these financial statements.

DNP SELECT INCOME FUND INC.
SCHEDULE OF INVESTMENTS—(Continued)
October 31, 2017

The Fund's investments are carried at fair value which is defined as the price that the Fund would receive upon selling an investment in a timely transaction to an independent buyer in the principal or most advantageous market of the investment. The three-tier hierarchy of inputs established to classify fair value measurements for disclosure purposes is summarized in the three broad levels listed below.

Level 1—quoted prices in active markets for identical securities

Level 2—other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risks, etc.)

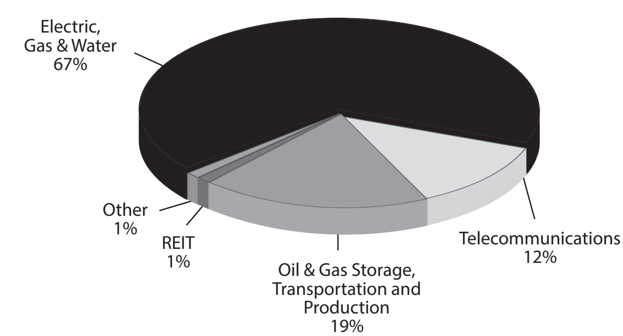
Level 3—significant unobservable inputs (including the Fund's own assumptions in determining fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in these securities. The following is a summary of the inputs used to value each of the Fund's investments at October 31, 2017:

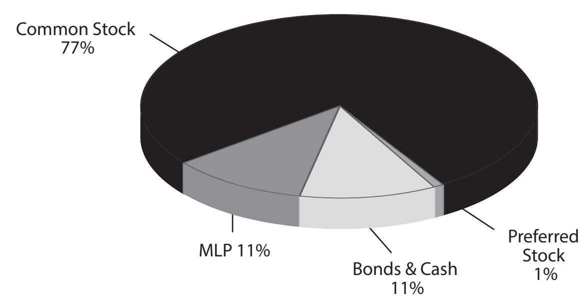
	Level 1	Level 2
Common stocks & MLP interests	$3,411,175,498	—
Preferred stocks	14,943,044	—
Bonds	—	$413,531,553
Total	$3,426,118,542	$413,531,553

There were no Level 3 priced securities held and there were no transfers between Level 1 and Level 2 related to securities held at October 31, 2017.

SECTOR ALLOCATION*



ASSET CLASS ALLOCATION*



* Percentages are based on total investments rather than total net assets applicable to common stock and include securities pledged as collateral for the Fund's credit facility.

The accompanying notes are an integral part of these financial statements.

Asset coverage ratio on total leverage (borrowings and preferred), end of period	387%	367%	344%	382%	345%	322%
Net assets applicable to common stock, end of period (000's omitted)	$2,870,541	$2,664,973	$2,440,250	$2,820,578	$2,448,236	$2,219,458

* Annualized

(1) Total return on market value assumes a purchase of common stock at the opening market price on the first day and a sale at the closing market price on the last day of each period shown in the table and assumes reinvestment of dividends at the actual reinvestment prices obtained under the terms of the Fund's dividend reinvestment plan. Total return on net asset value uses the same methodology, but with use of net asset value for beginning, ending and reinvestment values.

The accompanying notes are an integral part of these financial statements.

DNP SELECT INCOME FUND INC.
NOTES TO FINANCIAL STATEMENTS
October 31, 2017

Note 1. Organization:

DNP Select Income Fund Inc. (the "Fund") was incorporated under the laws of the State of Maryland on November 26, 1986. The Fund commenced operations on January 21, 1987, as a closed-end diversified management investment company registered under the Investment Company Act of 1940 (the "1940 Act"). The primary investment objectives of the Fund are current income and long-term growth of income. Capital appreciation is a secondary objective. In 2013, the Fund changed its fiscal year end to October 31 from December 31.

Note 2. Significant Accounting Policies:

The following are the significant accounting policies of the Fund:

A. Investment Valuation: Equity securities traded on a national or foreign securities exchange or traded over-the counter and quoted on the NASDAQ Stock Market are valued at the last reported sale price or, if there was no sale on the valuation date, then the security is valued at the mean of the bid and ask prices, in each case using valuation data provided by an independent pricing service, and are generally classified as Level 1. Equity securities traded on more than one securities exchange shall be valued at the last sale price on the business day as of which such value is being determined at the close of the exchange representing the principal market for such securities and are classified as Level 1. If there was no sale on the valuation date, then the security is valued at the mean of the closing bid and ask prices of the exchange representing the principal market for such securities. Debt securities are valued at the mean of the bid and ask prices provided by an independent pricing service when such prices are believed to reflect the fair value of such securities and are generally classified as Level 2. Any securities for which it is determined that market prices are unavailable or inappropriate are valued at a fair value using a procedure determined in good faith by the Board of Directors and are classified as Level 2 or 3 based on the valuation inputs.

B. Investment Transactions and Investment Income: Security transactions are recorded on the trade date. Realized gains or losses from sales of securities are determined on the identified cost basis. Dividend income is recognized on the ex-dividend date. Interest income and expense are recognized on the accrual basis. Discounts and premiums on securities are amortized or accreted over the lives of the respective securities for financial reporting purposes. Discounts and premiums are not amortized or accreted for tax purposes.

The Fund invests in master limited partnerships ("MLPs") which make distributions that are primarily attributable to return of capital. Dividend income is recorded using management's estimate of the percentage of income included in the distributions received from the MLP investments based on their historical dividend results. Distributions received in excess of this estimated amount are recorded as a reduction of cost of investments (i.e., a return of capital). The actual amounts of income and return of capital are only determined by each MLP after its fiscal year-end and may differ from the estimated amounts. For the year ended October 31, 2017, 100% of the MLP distributions were treated as a return of capital.

C. Federal Income Taxes: It is the Fund's intention to comply with requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income and capital gains to its shareholders. Therefore, no provision for Federal income or excise taxes is required. Management of the Fund has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. Since tax authorities can examine previously filed tax returns, the Fund's tax returns filed for the tax years 2014 to 2017 are subject to review.

D. Foreign Currency Translation: Investment securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at the date of valuation at the mean of the quoted bid and asked prices of such currencies. Purchases and sales of investment securities and income and expense items denominated in foreign currencies are translated into U.S. dollar amounts at the rate of exchange prevailing on the respective dates of such transactions. The Fund does not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gain or loss on investments.

E. Use of Estimates: The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Note 3. Agreements and Management Arrangements:

A. Adviser and Administrator: The Fund has an Advisory Agreement with Duff & Phelps Investment Management Co. (the "Adviser") an indirect, wholly owned subsidiary of Virtus Investment Partners, Inc. ("Virtus"), to provide professional investment management services for the Fund and has an Administration Agreement with J. J. B. Hilliard, W. L. Lyons, LLC (the "Administrator") to provide administrative and management services for the Fund. The Adviser receives a quarterly fee at an annual rate of 0.60% of the Average Weekly Managed Assets of the Fund up to $1.5 billion and 0.50% of Average Weekly Managed Assets in excess thereof. The Administrator receives a quarterly fee at annual rates of 0.20% of Average Weekly Managed Assets up to $1 billion, and 0.10% of Average Weekly Managed Assets over $1 billion. For purposes of the foregoing calculations, "Average Weekly Managed Assets" is defined as the average weekly value of the total assets of the Fund minus the sum of all accrued liabilities of the Fund (other than the aggregate amount of any outstanding borrowings or other indebtedness constituting financial leverage).

B. Directors: The Fund pays each director not affiliated with the Adviser an annual fee. Total fees paid to directors for the year ended October 31, 2017 were $374,467.

C. Affiliated Shareholder: At October 31, 2017, Virtus Partners, Inc. (a wholly owned subsidiary of Virtus) held 226,462 shares of the Fund, which represent 0.08% of the shares of common stock outstanding. These shares may be sold at any time.

Note 4. Investment Transactions:

Purchases and sales of investment securities (excluding short-term investments) for the year ended October 31, 2017 were $427,433,756 and $521,578,176 respectively.

Note 5. Distributions and Tax Information:

At October 31, 2017, the federal tax cost and aggregate gross unrealized appreciation (depreciation) were as follows:

Federal Tax Cost	Unrealized Appreciation	Unrealized Depreciation	Net Unrealized Appreciation
$2,885,790,955	$1,082,150,579	($128,291,439)	$953,859,140

The difference between the book basis and tax basis of unrealized appreciation (depreciation) and cost of investments is primarily attributable to MLP earnings and basis adjustments, the tax deferral of wash sales losses, the accretion of market discount and amortization of premiums.

The Fund declares and pays monthly dividends on its common shares of a stated amount per share. Subject to approval and oversight by the Fund's Board of Directors, the Fund seeks to maintain a stable distribution level (a Managed Distribution Plan) consistent with the Fund's primary investment objective of current income. If and when sufficient investment income is not available on a monthly basis, the Fund will distribute long-term capital gains and/or return capital in order to maintain the $0.065 per common share distribution level. The amount and timing of distributions are determined in accordance with federal tax regulations, which may differ from U.S. generally accepted accounting principles.

The tax character of distributions paid to common shareholders during the years ended October 31, 2017 and 2016 was as follows:

	10/31/17	10/31/16
Distributions paid from:		
Ordinary income	$76,777,949	$87,853,746
Long-term capital gains	114,785,379	95,011,267
Return of capital	31,075,165	36,780,790
Total distributions	$222,638,493	$219,645,803

At October 31, 2017, the components of distributable earnings on a tax basis were as follows:

Undistributed net ordinary income	$0
Undistributed long-term capital gains	0
Net unrealized appreciation	953,846,937
Other ordinary timing differences	(19,559,494)
	$934,287,443

Note 6. Reclassification of Capital Accounts:

Due to inherent differences in the recognition and distribution of income and realized gains/losses under U.S. generally accepted accounting principles and for federal income tax purposes, permanent differences between book and tax basis reporting have been identified and appropriately reclassified on the Statement of Assets and Liabilities. At October 31, 2017, the following reclassifications were recorded:

Paid-in capital	Accumulated net realized loss on investments	Distributions in excess of net investment income
$(2,878,624)	$(8,861,019)	$11,739,643

The reclassifications primarily relate to premium amortization, MLP recharacterization of gains and recharacterization of distributions. These reclassifications have no impact on the net asset value of the Fund.

Note 7. Debt Financing:

The Fund has a Committed Facility Agreement (the "Facility") with a commercial bank (the "Bank") that allows the Fund to borrow cash up to a limit of $400,000,000. The Fund has also issued Secured Notes (the "Notes"). The Facility and Notes rank pari passu and are senior, with priority in all respects to the outstanding common and preferred stock as to the payment of dividends and with respect to the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund. Key information regarding the Facility and Notes is detailed below.

A. Borrowings Under the Facility: Borrowings under the Facility are collateralized by certain assets of the Fund (the "Hypothecated Securities"). The Fund expressly grants the Bank the right to re-register the Hypothecated Securities in its own name or in another name other than the Fund's and to pledge, repledge, hypothecate, rehypothecate, sell, lend or otherwise transfer or use the Hypothecated Securities. Interest is charged at 3 month LIBOR (London Inter-bank Offered Rate) plus an additional percentage rate of 1.15% on the amount borrowed. A commitment fee of 0.90% on any undrawn balance is also paid and is included in interest expense and fees on the Statement of Operations. The Bank has the ability to require repayment of the Facility upon 179 days' notice or following an event of default. For the year ended October 31, 2017, the average daily borrowings under the Facility and the weighted daily average interest rate were $400,000,000 and 2.32%, respectively. As of October 31, 2017, the amount of such outstanding borrowings was $400,000,000 and the applicable interest rate was 2.53%.

The Bank has the ability to borrow the Hypothecated Securities ("Rehypothecated Securities"). The Fund is entitled to receive a fee from the Bank in connection with any borrowing of Rehypothecated Securities. The fee is computed daily based on a percentage of the difference between the fair market rate as determined by the Bank and the Fed Funds Open and is paid monthly. The Fund can designate any Hypothecated Security as ineligible for rehypothecation and can recall any Rehypothecated Security at any time and if the Bank fails to return it (or an equivalent security) in a timely fashion, the Bank will be liable to the Fund for the ultimate delivery of such security and certain costs associated with delayed delivery. In the event the Bank does not return the security or an equivalent security, the Fund will have the right to, among other things, apply and set off an amount equal to 100% of the then-current fair market value of such Rehypothecated Securities against any amounts owed to the Bank under the Facility. The Fund is entitled to receive an amount equal to any and all interest, dividends or distributions paid or distributed with respect to any Hypothecated Security on the payment date. At October 31, 2017, Hypothecated Securities under the Facility had a market value of $1,905,033,720 and Rehypothecated Securities had a market value of $353,988,571. If at the close of any business day, the value of all outstanding Rehypothecated Securities exceeds the value of the Fund's borrowings, the Bank shall promptly, at its option, either reduce the amount of the outstanding Rehypothecated Securities or deliver an amount of cash at least equal to the excess amount.

B. Notes: In 2016, the Fund completed a private placement of $300,000,000 of Notes in two fixed-rate series. Net proceeds from the issuances were used to reduce the amount of the Fund's borrowing under its Facility. The Notes are secured by a lien on all assets of the Fund of every kind, including all securities and all other investment property, equal and ratable with the liens securing the Facility. The Notes are not listed on any exchange or automated quotation system.

Key terms of each series of secured notes is as follows:

Series	Amount	Rate	Maturity	Estimated Fair Value
A	$100,000,000	2.76%	7/22/23	$97,590,000
B	200,000,000	3.00%	7/22/26	192,260,000
	$300,000,000			$289,850,000

The Fund incurred costs in connection with the issuance of the Notes. These costs were recorded as a deferred charge and are being amortized over the respective life of each series of Notes. Amortization of these offering costs of $414,715 is included under the caption "Interest expense and amortization of deferred offering costs on secured notes" on the Statement of Operations and the unamortized balance is deducted from the carrying amount of the Notes under the caption "Secured notes" on the Statement of Assets and Liabilities.

Holders of the Notes are entitled to receive semi-annual interest payments until maturity. The Notes accrue interest at the annual fixed rate indicated above. The Notes are subject to optional and mandatory redemption in certain circumstances and subject to certain prepayment penalties and premiums.

The estimated fair value of the Notes was calculated, for disclosure purposes, based on estimated market yields and credit spreads for comparable instruments or representative indices with similar maturity, terms and structure. The Notes are categorized as Level 2 within the fair value hierarchy.

Note 8. Floating Rate Mandatory Redeemable Preferred Shares:

In 2014, the Fund issued 3,000 Floating Rate Mandatory Redeemable Preferred Shares ("MRP Shares") in four series each with a liquidation preference of $100,000 per share. Proceeds from the issuances were used to redeem all of the remaining outstanding remarketed preferred shares and to reduce the size of the Fund's credit facility.

Key terms of each series of MRP Shares at October 31, 2017 are as follows:

Series	Shares Outstanding	Liquidation Preference	Quarterly Rate Reset	Rate	Weighted Daily Average Rate	Mandatory Redemption Date
A	1,320	$132,000,000	3M LIBOR + 2.00%	3.34%	3.11%	4/1/2019
B	600	60,000,000	3M LIBOR + 2.05%	3.39%	3.16%	4/1/2021
C	750	75,000,000	3M LIBOR + 2.15%	3.49%	3.26%	4/1/2024
D	330	33,000,000	3M LIBOR + 1.95%	3.29%	3.06%	4/1/2021
	3,000	$300,000,000				

The Fund incurred costs in connection with the issuance of the MRP Shares. These cost were recorded as a deferred charge and are being amortized over the respective life of each series of MRP Shares. Amortization of these deferred offering costs of $679,703 is included under the caption "Interest expense and amortization of deferred offering costs on preferred shares" on the Statement of Operations and the unamortized balance is deducted from the carrying amount of the MRP Shares under the caption "Floating rate mandatory redeemable preferred shares" on the Statement of Assets and Liabilities.

Holders of the MRP Shares are entitled to receive quarterly cumulative cash dividend payments on the first business day following each quarterly dividend date which is the last day of each of March, June, September and December.

MRP Shares are subject to optional and mandatory redemption in certain circumstances. The redemption price per share is equal to the sum of the liquidation preference per share plus any accumulated but unpaid dividends plus, in some cases, an early redemption premium (which varies based on the date of redemption). The MRP Shares are not listed on any exchange or automated quotation system. The fair value of the MRP Shares is estimated to be their liquidation preference. The MRP Shares are categorized as Level 2 within the fair value hierarchy. The Fund is subject to certain restrictions relating to the MRP Shares such as maintaining certain asset coverage, effective leverage ratio and overcollateralization ratio requirements. Failure to comply with these restrictions could preclude the Fund from declaring any distributions to common shareholders and could trigger the mandatory redemption of the MRP Shares at liquidation value.

In general, the holders of the MRP Shares and of the Common Stock have equal voting rights of one vote per share. The holders of the MRP Shares are entitled to elect two members of the Board of Directors, and separate class votes are required on certain matters that affect the respective interests of the MRP Shares and the Common Stock.

Note 9. Indemnifications:

Under the Fund's organizational documents, its Officers and Directors are indemnified against certain liabilities arising out of the performance of their duties to the Fund. In addition, in the normal course of business, the Fund enters into contracts that provide general indemnifications to other parties. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not occurred. However, the Fund has not had prior claims or losses pursuant to these arrangements and expects the risk of loss to be remote.

Note 10. Subsequent Events:

Management has evaluated the impact of all subsequent events on the Fund through the date the financial statements were issued, and has determined that there were no subsequent events requiring recognition or disclosure in these financial statements.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders of
DNP Select Income Fund Inc.

We have audited the accompanying statement of assets and liabilities of DNP Select Income Fund Inc. (the Fund), including the schedule of investments, as of October 31, 2017, and the related statements of operations and cash flows for the year then ended, the statements of changes in net assets for each of the two years in the period then ended and the financial highlights for each of the periods indicated therein. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Fund's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of October 31, 2017, by correspondence with the custodian. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of DNP Select Income Fund Inc. at October 31, 2017, the results of its operations and its cash flows for the year then ended, the changes in its net assets for each of the two years in the period then ended and the financial highlights for each of the periods indicated therein in conformity with U.S. generally accepted accounting principles.

Ernst & Young LLP

December 14, 2017

TAX INFORMATION (Unaudited)

For the year ended October 31, 2017, the Fund makes the following disclosures for federal income tax purposes. The percentage, or the maximum amount allowable, of its ordinary income dividends to qualify for the lower tax rates ("QDI") applicable to individual shareholders, the percentage of ordinary income dividends earned by the Fund which qualifies for the dividends received deduction ("DRD") for corporate shareholders, and the long-term capital gains dividends ("LTCG") taxable at a 20% rate, or lower depending on the shareholder's income ($ reported in thousands) are listed below. The actual percentage of QDI, DRD and LTCG for the calendar year will be designated in year-end tax statements.

QDI	DRD	LTCG
100%	100%	$120,462

INFORMATION ABOUT PROXY VOTING BY THE FUND (Unaudited)

The Fund's Board of Directors has adopted proxy voting policies and procedures. These proxy voting policies and procedures may be changed at any time by the Fund's Board of Directors.

A description of the policies and procedures that the Fund uses to determine how to vote proxies relating to portfolio securities is available without charge, upon request, by calling the Administrator toll-free at (833) 604-3163 or is available on the Fund's website www.dnpselectincome.com or on the SEC's website www.sec.gov.

Information regarding how the Fund voted proxies relating to portfolio securities during the most recent 12 month period ended June 30 is available without charge, upon request, by calling the Administrator toll-free at (833) 604-3163 or is available on the Fund's website at www.dnpselectincome.com or on the SEC's website at www.sec.gov.

INFORMATION ABOUT THE FUND'S PORTFOLIO HOLDINGS (Unaudited)

The Fund files its complete schedule of portfolio holdings with the SEC for the first and third fiscal quarters of each fiscal year (quarters ended January 31 and July 31) on Form N-Q. The Fund's Form N-Q is available on the SEC's web site at www.sec.gov and may be reviewed and copied at the SEC's Public Reference Room in Washington D.C. Information on the operation of the SEC's Public Reference Room may be obtained by calling (800) 732-0330. In addition, the Fund's Form N-Q is available without charge, upon request, by calling the Administrator toll-free at (833) 604-3163 or is available on the Fund's website at www.dnpselectincome.com.

ADDITIONAL INFORMATION (Unaudited)

Since October 31, 2016: (i) there have been no material changes in the Fund's investment objectives or policies that have not been approved by the shareholders; (ii) there have been no changes in the Fund's charter or by-laws that would delay or prevent a change in control of the Fund which have not been approved by the shareholders; (iii) there have been no material changes in the principal risk factors associated with an investment in the fund; and (iv) there have been no changes in the persons who are primarily responsible for the day-to-day management of the Fund's portfolio other than that Connie M. Luecke will succeed Nathan I. Partain as Chief Investment Officer of the Fund effective January 1, 2018, as discussed in the management letter on page 3. Additional information about Ms. Luecke's business experience is provided on page 27.

Additional information, if any relating to the Fund's directors and officers, in addition to such information as is found elsewhere in this Annual Report, may be requested by contacting the Fund at the address provided in this report.

INFORMATION ABOUT DIRECTORS AND OFFICERS OF THE FUND (Unaudited)

Set forth below are the names and certain biographical information about the directors of the Fund. Directors are divided into three classes and are elected to serve staggered three-year terms. All of the directors are elected by the holders of the Fund's common stock, except for Mr. Genetski and Ms. McNamara, who are elected by the holders of the Fund's preferred stock. All of the current directors of the Fund, with the exception of Mr. Partain, are classified as independent directors because none of them are "interested persons" of the Fund, as defined in the 1940 Act. Mr. Partain is an "interested person" of the Fund by reason of his position as President and Chief Executive Officer of the Fund and President, Chief Investment Officer and employee of the Adviser. The term "Fund Complex" refers to the Fund and all the other investment companies advised by affiliates of Virtus.

The address for all directors is c/o Duff & Phelps Investment Management Co., 200 South Wacker Drive, Suite 500, Chicago, Illinois 60606. All of the Fund's directors currently serve on the Board of Directors of three other registered closed-end investment companies that are advised by Duff & Phelps Investment Management Co.: Duff & Phelps Global Utility Income Fund Inc. ("DPG"), Duff & Phelps Utility and Corporate Bond Trust Inc. ("DUC") and DTF Tax-Free Income Inc. ("DTF").

Dianna P. Wengler J.J.B. Hilliard, W.L. Lyons, LLC 500 West Jefferson Street Louisville, KY 40202 Age: 57	Vice President since 2006 and Assistant Secretary since 1988 (Assistant Vice President 2004–2006)	Senior Vice President, J.J.B. Hilliard, W.L. Lyons, LLC since 2016 (Vice President 1990–2015); Senior Vice President, Hilliard-Lyons Government Fund, Inc. 2006–2010 (Vice President 1998–2006; Treasurer 1988–2010)

DISTRIBUTION REINVESTMENT AND CASH PURCHASE PLAN (Unaudited)

DNP Select Income Fund Inc. (the "Fund") maintains a Distribution Reinvestment and Cash Purchase Plan (the "plan"). Under the plan, shareholders may elect to have all distributions paid on their common stock automatically reinvested by Computershare Trust Company, N.A. (the "Agent") as plan agent for shareholders, in additional shares of common stock of the Fund. Only registered shareholders may participate in the plan. The plan permits a nominee, other than a depository, to participate on behalf of those beneficial owners for whom it is holding shares who elect to participate. However, some nominees may not permit a beneficial owner to participate without transferring the shares into the owner's name. Shareholders who do not elect to participate in the plan will receive all distributions in cash paid by check mailed directly to the shareholder (or, if the shareholder's shares are held in street or other nominee name, then to such shareholder's nominee) by the Agent as dividend disbursing agent. Registered shareholders may also elect to have cash dividends deposited directly into their bank accounts.

When a distribution is reinvested under the plan, the number of shares of common stock equivalent to the cash dividend or distribution is determined as follows:

(i) If the current market price of the shares equals or exceeds their net asset value, the Fund will issue new shares to the plan at the greater of current net asset value or 95% of the then current market price, without any per share fees (or equivalent purchase costs).

(ii) If the current market price of the shares is less than their net asset value, the Agent will receive the distributions in cash and will purchase the reinvestment shares in the open market or in private purchases for the participants' accounts. Each participant will pay a per share fee, (or equivalent purchase costs) incurred in connection with such purchases. Purchases are made through a broker selected by the Agent that may be an affiliate of the Agent. Shares are allocated to the accounts of the respective participants at the average price per share, plus per share fees paid by the Agent for all shares purchased by it in reinvestment of the distribution(s) paid on a particular day and in concurrent purchases of shares for voluntary additional share investment.

The time of valuation is the close of trading on the New York Stock Exchange on the most recent day preceding the date of payment of the distribution on which that exchange is open for trading. As of that time, the Fund's administrator compares the net asset value per share as of the time of the close of trading on the New York Stock Exchange, and determines which of the alternative procedures described above are to be followed.

The reinvestment shares are credited to the participant's plan account in the Fund's stock records maintained by the Agent, including a fractional share to six decimal places. The Agent sends to each participant a written statement of all transactions in the participant's share account, including information that the participant will need for income tax records. Shares held in the participant's plan account have full distribution and voting rights. Distributions paid on shares held in the participant's plan account will also be reinvested.

The cost of administering the plan is borne by the Fund. There is no brokerage commission on shares issued directly by the Fund. However, participants do pay a per share fee incurred in connection with purchases by the Agent for reinvestment of distributions and voluntary cash payments.

The automatic reinvestment of distributions does not relieve participants of any income taxes that may be payable (or required to be withheld) on distributions.

Plan participants may purchase additional shares of common stock through the plan by delivering to the Agent a check for at least $100, but not more than $5,000, in any month. The Agent will use such funds to purchase shares in the open market or in private transactions.

The purchase price of such shares may be more than or less than net asset value per share. The Fund will not issue new shares or supply treasury shares for such voluntary additional share investment. Purchases will be made commencing with the time of the first distribution payment after receipt of the funds for additional purchases, and may be aggregated with purchases of shares for reinvestment of the distribution. Shares will be allocated to the accounts of participants purchasing additional shares at the weighted average price per share, plus a service charge imposed by the Agent and a per share fee paid by the Agent for all shares purchased by it, including for reinvestment of distributions. Funds sent to the Agent for voluntary additional share investment may be recalled by the participant by telephone, internet or written notice received by the Agent not later than two business days before the next distribution payment date. If for any reason a regular monthly distribution is not paid by the Fund, funds for voluntary additional share investment will be returned to the participant, unless the participant specifically directs that they continue to be held by the Agent for subsequent investment. Participants will not receive interest on voluntary additional funds held by the Agent pending investment.

A shareholder may leave the plan at any time by telephone, Internet or written notice to the Agent. If your letter of termination is received by the Agent after the record date for a distribution, it may not be effective until the next distribution. Upon discontinuing your participation, you will have two choices (i) if you so request by telephone, through the Internet or in writing, the Agent will sell your shares and send you a check for the net proceeds after deducting the Agent's sales fees (currently $5.00) and any per share fee (currently $0.04) or (ii) if you so request by telephone, through the Internet or in writing, you will receive from the Agent a certificate for the number of whole non-certificated shares in your share account, and a check in payment of the value of a fractional share, less applicable fees. If and when it should be determined that the only balance remaining in your plan account is a fraction of a single share, your participation may be deemed to have terminated, and the Agent will mail you a check for the value of your fractional share less applicable fees, determined as in the case of other terminations.

The Fund may change, suspend or terminate the plan at any time, and will promptly mail a notice of such action to the participants at their last address of record with the Agent.

For more information regarding, and an authorization form for, the plan, please contact the Agent at 1-877-381-2537 or on the Agent's website, www.computershare.com/investor.

Information on the plan is also available on the Fund's website at www.dnpselectincome.com.
