The above table includes the distribution paid in January 2018 because this distribution is treated for tax purposes as having been paid during 2017 and consequently is included on your 2017 Form 1099-DIV.

A portion of these distributions may be eligible for a reduced tax rate. The percentage of each ordinary income dividend that is qualified dividend income is **78.1%** (shown in box 1b of your Form 1099-DIV). The percentage of each ordinary income dividend that qualifies for the dividends received deduction allowed to certain corporate shareholders is **75.6%**.

Return of capital is a nontaxable transaction. Your cost basis must be reduced by this amount until the basis of your stock has been reduced to zero. Any excess is treated as a gain from the sale of shares. Please consult your tax adviser regarding the proper treatment of return of capital.

Of the dividends paid in 2017, no portion was derived from earnings on obligations of the U.S. Government.
