

Beginning on January 1, 2021, as permitted by regulations adopted by the Securities and Exchange Commission, paper copies of the Fund's shareholder reports like this one will no longer be sent by mail, unless specifically requested from the Fund or from your financial intermediary, such as a broker-dealer or bank. Instead, the reports will be made available on a website, and you will be notified by mail each time a report is posted and provided with a website link to access the report.

You may elect at any time to receive not only shareholder reports but also certain other communications from the Fund electronically, or you may elect to receive paper copies of all future shareholder reports free of charge to you. If you own your shares directly with the Fund, you may make such elections by calling AST, the Fund's transfer agent, at 1-866-668-8552 or, with respect to requesting electronic delivery, by visiting www.astfinancial.com. If you own your shares through a financial intermediary, please contact your financial intermediary to make your request and to determine whether your election will apply to all funds in which you own shares through that intermediary.

DTF Tax-Free Income Inc.

Annual Report October 31, 2019

LETTER TO SHAREHOLDERS

Dear Fellow
Shareholders:

December 19, 2019

THE CURRENT MUNICIPAL MARKET ENVIRONMENT AND YOUR FUND

We begin our discussion of DTF Tax-Free Income Inc. (the “DTF Fund” or the “Fund”) for the twelve months ended October 31, 2019, with a review of the municipal market environment in which the DTF Fund invests.

The municipal bond market experienced strong performance over the twelve months of the fiscal year ending October 31, 2019, as municipal interest rates decreased materially during this time period. The strong performance was fueled by declining U.S. Treasury Bond yields, record-setting tax-exempt mutual fund inflows and manageable supply of newly issued municipal bonds. According to Lipper U.S. Fund Flows, net inflows through October 31, 2019 represent the second highest amount the market has ever seen in a calendar year. With two months still remaining in the year, we expect that 2019 will set the record for the highest amount of net inflows ever recorded in a single calendar year. Needless to say, this healthy demand for municipal bonds has helped fuel strong market returns. Additionally, re-investment proceeds (bond calls, maturities and coupon payments) have exceeded new issuance levels so far in 2019, further helping tilt the balance of supply and demand in favor of strong relative municipal performance. Municipal bond yields were further aided by the Federal Open Market Committee (“FOMC”), the committee within the Federal Reserve that sets domestic monetary policy, in the form of reductions to the target Federal Funds rate during the year. These actions have mostly been interpreted as a signal to municipal bond investors that the FOMC will likely keep the Federal Funds target rate unchanged or possibly move it even lower in the near future. The end result of this accommodative FOMC policy and the technically strong municipal bond market was a total return of 9.4% for the fiscal year ending October 31, 2019, as measured by the Bloomberg Barclays Municipal Bond Index.

For the fiscal year, longer maturity bonds outperformed intermediate and shorter dated municipal bonds, as these longer duration bonds benefited more from declining interest rates as well as from the strong investor demand seeking the higher yields available in longer dated maturities. Additionally, the lower the credit rating, the better the relative performance during the year, as investors once again continued to demand higher yielding bonds amid generational low municipal bond interest rates. Below investment grade-rated securities (i.e., junk bonds), as measured by the Bloomberg Barclays Municipal High Yield Index, generated the best relative performance among credit quality tiers of the municipal bond market for the twelve months ended October 31, 2019, producing a total return of 11.7%. This consistent and steady decline in the credit risk spreads of lower rated bonds has moved the risk spreads on junk bonds into the tightest levels the market has experienced over the past 10 years. In this regard, it is important to remember that the investment policies of the Fund prohibit the purchase of bonds with ratings below investment grade.

CREDIT FUNDAMENTALS

The credit fundamentals for the municipal market remain healthy. While we continue to be cautious about the longer-term consequences of underfunded pensions, the potential effect of climate change on various locations across the country and the possibility of an economic slowdown in the future, municipalities have generally benefited from the long economic expansion over the past ten years. Tax collections have shown persistent growth since the Great Recession and with municipalities continuing to exercise fiscal austerity measures, their rainy day funds have increased and municipalities appear to be better positioned to withstand the next economic downturn.

One concern arising out of generational low interest rates is the potential for increased credit impairments. As fierce demand for yield has persisted in recent years, the easy access to the capital environment for lower quality issuers has the potential of increasing impairments going forward due to weaker underwriting standards and investors' current willingness to accept more marginal credits. While we do not see this as a systemic problem for municipal credit, it does have the potential to create concern among investors about the fundamental condition of the market. We continue to believe that now is not the opportune time to take on additional credit risk in the municipal market, especially with credit spreads at historically tight levels.

TECHNICAL MARKET CONDITIONS

For most of the past fiscal year, the strong supply/demand technical conditions for municipal bonds remained in place. With the general consensus that lower rates will persist for the near term, particularly when looking at low global interest rates, demand for municipals can continue even at these lower yields.

Lower yields have created an opportunity for municipalities to refinance their higher cost debt, which increased issuance in the latter part of the third quarter and the start of the fourth quarter in 2019. This additional supply of municipal bonds, combined with elevated U.S. Treasury rate volatility, weighed on the market in the later months of the fiscal year. The Tax Cuts and Jobs Act, also known as the Trump tax reform, no longer allows municipalities to advance refund their higher cost debt with new tax-exempt issuance, but it does permit them to refund outstanding issues with taxable municipal debt. As interest rates have dipped to multi-year lows, the ability to refinance existing tax-exempt debt with taxable municipal bonds has begun to gain traction. While this type of issuance has increased the overall supply of municipal bonds, we do not expect it to overwhelm the tax-exempt bond market as the buyers of taxable municipal bonds are generally different from the tax sensitive investors that typically purchase tax-exempt bonds.

LOOKING AHEAD

While we expect that municipal yields will mostly track U.S. Treasury yield moves, and interest rate volatility will likely persist, we expect the municipal market to remain attractive for investors, especially when considering the taxable-equivalent yields available. Municipals are still considered the "Ultimate Safe Investment," as recently described by *Barron's*, with the majority of municipalities in a reasonably sound financial position to face an economic slowdown. As such, we expect demand from retail investors to remain strong as we move into 2020, particularly as tax-exempt bonds remain one of the few readily available alternatives for taxpayers to manage their federal and state tax liabilities. We expect issuance of municipal bonds to exceed \$400 billion in 2020 (approximately a 5% increase over 2019's expected total issuance) with new money borrowing representing about 60% of issuance and refundings making up the balance. As is typical in a presidential election year, issuance levels will most likely be more heavily weighted in the first half of the year. Further, as taxable municipal bonds are increasingly being used as a cost-saving vehicle to advance refund tax-exempt debt, total municipal debt issuance levels (both tax-exempt and taxable) will be sensitive to interest rates.

THE FUND

In managing the DTF Fund, we continue to emphasize an investment strategy of investing mostly in higher quality investment grade rated "AA" and "A" callable revenue bonds with coupons of 5% or higher (constituting over 80% of the Fund's portfolio). As of October 31, 2019, the Fund held almost 90% of its total assets in municipal bonds rated "A" or higher and over 80% in bonds with a 5% or greater coupon across multiple sectors and states. However, as interest rates have declined, we have selectively purchased bonds with lower coupons (3% - 4%) in an effort to add incremental yield to the Fund without adding additional credit risk. The Fund remains well diversified with over 15 industry sectors of the municipal bond market, and with healthcare, general obligation, education, special tax and water & sewer bonds representing the Fund's top five exposures. The Fund continues to favor revenue bonds compared to general obligation bonds (approximately 87% revenue vs. 13% general obligation), as we prefer the predictable revenue streams, more settled legal structure and better post-default recovery rates that have historically been afforded to revenue bonds. The Fund is well diversified geographically, with exposure to 33 states and the District of Columbia. In an effort to manage interest rate risk, the Fund continues to maintain exposure across the maturity spectrum of the yield curve in order to help moderate the risk from potential changes in interest rates and to the shape of the yield curve that could result from future actions of the FOMC or changing investor sentiment. We continue to believe that higher quality municipal bonds offer reasonably good relative value and that investors are being compensated significantly less in risk spreads for owning the lowest-rated bonds. The strong demand for lower-rated issues has decreased the yield advantage of taking on the additional credit risk to levels not seen since prior to 2009.

As of October 31, 2019, the DTF Fund was paying a \$0.48 per share annualized dividend and had a closing price of \$14.18 per share. At the regular September 2019 meeting of the DTF Fund’s Board of Directors (the “Board”), the Board determined that the DTF Tax-Free Income Inc. monthly dividend payable be increased to 4.0 cents per share. This dividend rate represents an increase of 0.5 cent per share from the previous 3.5 cent per share monthly distribution rate. This increase in the dividend rate is intended to better align the Fund’s monthly distribution with its current and projected earnings, its increased balance of undistributed net earnings and the municipal closed-end fund market. The Fund’s investment adviser will continue to closely monitor the markets in which the Fund is invested and plans to investigate all options available to support the distribution rate in the future. This new dividend rate is subject to re-evaluation as the interest rate and credit environment changes. An extended environment of historically low municipal interest rates combined with periods of increased leverage costs have added a significant element of risk to leveraged municipal bond funds, including the Fund. When bonds held in a portfolio mature or are called for redemption during a period of low interest rates, the proceeds generally need to be reinvested in lower yielding securities. If the cost of leverage were to rise without a similar or greater rise in the available re-investment rate for bonds called and/or maturing, the Fund’s earnings would likely be reduced. If the Fund’s net earnings were to fall short of its dividend payout, the Fund’s balance of undistributed net income would decline further, possibly necessitating dividend reductions.

Maturity and duration are measures of the sensitivity of a fund’s portfolio of investments to changes in interest rates. More specifically, duration refers to the percentage change in a bond’s price for a given change in rates (typically +/- 100 basis points). In general, the greater the duration of a portfolio, the greater is the potential percentage price volatility for a given change in interest rates. As of October 31, 2019, the duration of the Fund’s portfolio of investments was 5.3 years, in line with the duration of the investments constituting the Bloomberg Barclays Municipal Bond Index, which was also 5.3 years.

In addition to the risk of disruptions in the broader credit market, the level of interest rates can be a primary driver of bond fund total returns, including the Fund’s returns. An extended environment of historically low interest rates adds an element of reinvestment risk, since the proceeds of maturing bonds may need to be reinvested in lower-yielding securities. As a practical matter, it is not possible for the Fund to be completely insulated from turmoil in the global financial markets or unexpected moves in interest rates. Any sudden or unexpected rise in interest rates would likely reduce the total return of bond funds, since higher interest rates could be expected to depress the valuations of fixed-rate bonds held in a portfolio. Further, if the municipal yield curve flattens (when the difference between short-term interest rates and long-term rates narrows) or inverts (when short-term rates exceed long-term rates), the Fund’s total return may be pressured lower. Management believes that over the long term, the diversification of the portfolio across multiple states and sectors, in addition to the distribution of assets along the yield curve, positions the Fund to take advantage of future opportunities while limiting credit risk and volatility to some degree. However, a sustained and meaningful rise in interest rates from current levels would have the potential to significantly reduce the total return of leveraged bond funds, including the Fund, and would likely put downward pressure on both the net asset value and market prices of such funds.

FUND PERFORMANCE

The following table compares the DTF Fund’s total return and the Bloomberg Barclays Municipal Bond Index:

Total Return¹			
For the period indicated through October 31, 2019			
	One Year	Three Years (annualized)	Five Years (annualized)
DTF Tax-Free Income Inc.			
Market Value ²	19.7%	2.6%	3.7%
Net Asset Value ³	11.7%	3.0%	3.5%
Bloomberg Barclays Municipal Bond Index ⁴	9.4%	3.6%	3.6%

¹. Past performance is not indicative of future results. Current performance may be lower or higher than the performance in historical periods.

2. Total return on market value assumes a purchase of common stock at the opening market price on the first business day and a sale at the closing market price on the last business day of each period shown in the table and assumes reinvestment of dividends at the actual reinvestment prices obtained under the terms of the DTF Fund's dividend reinvestment plan. In addition, when buying or selling stock, you would ordinarily pay brokerage expenses. Because brokerage expenses are not reflected in the above calculations, your total return net of brokerage expenses would be lower than the total returns on market value shown in the table. Source: Administrator of the DTF Fund.
3. Total return on NAV uses the same methodology as is described in note 2, but with use of NAV for beginning, ending and reinvestment values. Because the DTF Fund's expenses (ratios detailed on page 18 of this report) reduce the DTF Fund's NAV, they are already reflected in the DTF Fund's total return on NAV shown in the table. NAV represents the underlying value of the DTF Fund's net assets, but the market price per share may be higher or lower than the NAV. Source: Administrator of the DTF Fund.
4. The Bloomberg Barclays Municipal Bond Index (formerly known as the Barclays Municipal Bond Index) is a market capitalization-weighted index that is designed to measure the long-term tax-exempt bond market. The index is calculated on a total return basis with dividends reinvested. The index is unmanaged, its returns do not reflect any fees, expenses, or sales charges, and it is not available for direct investment. Source: Bloomberg.

BOARD OF DIRECTORS MEETING

At the regular September 2019 meeting of the DTF Fund's Board of Directors, the Board declared the following monthly dividends:

<u>Cents Per Share</u>	<u>Record Date</u>	<u>Payable Date</u>
4.0	October 15	October 31
4.0	November 15	November 29
4.0	December 16	December 31

At the regular December 2019 meeting of the DTF Fund's Board of Directors, the Board declared the following monthly dividends:

<u>Cents Per Share</u>	<u>Record Date</u>	<u>Payable Date</u>
4.0	January 15	January 31
4.0	February 18	February 28
4.0	March 16	March 31

ABOUT YOUR FUND

The Fund's investment objective is current income exempt from regular federal income tax consistent with the preservation of capital. The fund seeks to achieve its investment objective by investing primarily (at least 80% of its total assets) in a diversified portfolio of investment-grade tax-exempt obligations. The Fund may not invest more than 25% of its total assets (taken at market value at the time of each investment) in the securities of issuers in a single industry; provided that, for purposes of this restriction, tax exempt securities of issuers that are states, municipalities or their political subdivisions are not considered to be the securities of issuers in any single industry.

The use of leverage enables the Fund to borrow at short-term rates and invest at longer-term rates. As of October 31, 2019, the Fund's leverage consisted of \$65 million of Variable Rate MuniFund Term Preferred Shares (VMTP). On that date, the total amount of leverage represented approximately 33% of the Fund's total assets. The amount and type of leverage used is reviewed by the Board of Directors based on the Fund's expected earnings relative to the anticipated costs (including fees and expenses) associated with the leverage. In addition, the long-term expected benefits of leverage are weighed against the potential effect of increasing the volatility of both the Fund's net asset value and the market value of its common stock. Historically, the tendency of the U.S. yield curve to exhibit a positive slope (i.e. long-term rates higher than short-term rates) has fostered an environment in which leverage can make a positive contribution to the earnings of the Fund. There is no assurance that this will continue to be the case in the future. A decline in the difference between short-term and long-term rates could have an adverse effect on the income provided from leverage. Prolonged periods of low longer-term interest rates can

result in modest reinvestment opportunities for the Fund's portfolio and could also adversely affect the income provided from leverage. If the DTF Fund were to conclude that the use of leverage was likely to cease being beneficial, it could modify the amount and type of leverage it uses or eliminate the use of leverage entirely.

We continue to appreciate your interest in the DTF Fund and look forward to being of continued service in the future.

Timothy M. Heaney, CFA
Vice President and Chief Investment Officer

NET ASSETS APPLICABLE TO COMMON STOCK—100.0%		
		<u>\$134,204,557</u>

The Fund's investments are carried at fair value which is defined as the price that the Fund would receive upon selling an investment in a timely transaction to an independent buyer in the principal or most advantageous market of the investment. The three-tier hierarchy of inputs established to classify fair value measurements for disclosure purposes is summarized in the three broad levels listed below.

- Level 1—quoted prices in active markets for identical securities.
- Level 2—other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risks, etc.).
- Level 3—significant unobservable inputs (including the Fund's own assumptions in determining fair value of investments).

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in these securities. The following is a summary of the inputs used to value each of the Fund's investments at October 31, 2019:

	<u>Level 2</u>
Municipal bonds	<u>\$196,577,795</u>

There were no Level 1 or Level 3 priced securities held and there were no transfers into or out of Level 3.

(a) The following abbreviations are used in the portfolio descriptions:

- AGC—Assured Guaranty Corp.*
- AGM—Assured Guaranty Municipal Corp.*
- AMBAC—Ambac Assurance Corporation*
- BAM—Build America Mutual Assurance Company*
- CAB—Capital Appreciation Bond
- COP—Certificate of Participation
- FHA—Federal Housing Authority*
- NRE—National Public Finance Guarantee Corporation*
- PSF—Texas Permanent School Fund*

- * Indicates an obligation of credit support, in whole or in part.
- (b) Prerefunded and escrowed to maturity issues are secured by escrowed cash, U.S. government obligations, or other securities.

The percentage shown for each investment category is the total value of that category as a percentage of the net assets applicable to common stock of the Fund.

The accompanying notes are an integral part of these financial statements.

Summary of Ratings
as a Percentage of Long-Term Investments
(Unaudited)

<u>Rating*</u>	<u>%</u>
AAA	7.0
AA	47.2
A	34.8
BBB	7.7
BB	0.3
B	0.5
NR	<u>2.5</u>
	<u>100.0</u>

*Individual ratings are grouped based on the lower rating of Standard & Poor's Financial Services LLC ("S&P") or Moody's Investors Service, Inc. ("Moody's") and are expressed using the S&P ratings scale. If a particular security is rated by either S&P or Moody's, but not both, then the single rating is used. If a particular security is not rated by either S&P or Moody's, then a rating from Fitch Ratings, Inc. is used, if available. The Fund does not evaluate these ratings but simply assigns them to the appropriate credit quality category as determined by the ratings agencies, as applicable. Securities that have not been rated by S&P, Moody's or Fitch totaled 2.5% of the portfolio at the end of the reporting period.

FINANCIAL HIGHLIGHTS—SELECTED PER SHARE DATA AND RATIOS

The table below provides information about income and capital changes for a share of common stock outstanding throughout the years indicated (excluding supplemental data provided below):

	For the year ended October 31,				
	2019	2018	2017	2016	2015
PER SHARE DATA:					
Net asset value, beginning of year	\$14.62	\$15.69	\$16.31	\$16.31	\$16.70
Net investment income	0.39	0.47	0.54	0.57	0.69
Net realized and unrealized gain (loss)	1.29	(0.92)	(0.41)	0.30	(0.24)
Net increase (decrease) from investment operations applicable to common stock	1.68	(0.45)	0.13	0.87	0.45
Distributions on common stock:					
Net investment income	(0.43)	(0.59)	(0.70)	(0.84)	(0.84)
Net realized gains	(0.12)	(0.03)	(0.05)	(0.03)	—
Total distributions	(0.55)	(0.62)	(0.75)	(0.87)	(0.84)
Net asset value, end of year	\$15.75	\$14.62	\$15.69	\$16.31	\$16.31
Per share market value, end of year	\$14.18	\$12.34	\$14.16	\$15.08	\$15.13
RATIOS TO AVERAGE NET ASSETS APPLICABLE TO COMMON STOCK:					
Operating expenses	2.87%	2.58%	2.29%	2.16%	1.86%
Operating expenses, without leverage	1.14%	1.16%	1.15%	1.13%	1.11%
Net investment income	2.58%	3.10%	3.42%	3.45%	4.21%
SUPPLEMENTAL DATA:					
Total return on market value ⁽¹⁾	19.70%	(8.72)%	(1.21)%	5.31%	5.55%
Total return on net asset value ⁽¹⁾	11.67%	(2.94)%	0.95%	5.41%	2.77%
Portfolio turnover rate	10%	23%	17%	14%	16%
Net assets applicable to common stock, end of year (000's omitted)	\$134,205	\$124,550	\$133,688	\$138,973	\$138,981
Preferred stock outstanding, end of year (000's omitted) ⁽²⁾	\$65,000	\$65,000	\$65,000	\$65,000	\$65,000
Asset coverage on preferred stock ⁽³⁾	\$306,469	\$291,615	\$305,674	\$313,804	\$313,817
Asset coverage ratio on preferred stock ⁽⁴⁾	306%	292%	306%	314%	314%

⁽¹⁾ Total return on market value assumes a purchase of common stock at the opening market price on the first business day and a sale at the closing market price on the last business day of each year shown in the table and assumes reinvestment of dividends at the actual reinvestment prices obtained under the terms of the Fund's dividend reinvestment plan. Total return on net asset value uses the same methodology, but with use of net asset value for beginning, ending and reinvestment values.

⁽²⁾ The Fund's preferred stock is not publicly traded.

⁽³⁾ Represents value of net assets applicable to common stock plus preferred stock outstanding at year end divided by the preferred stock outstanding at year end, calculated per \$100,000 liquidation preference per share of preferred stock.

⁽⁴⁾ Represents value of net assets applicable to common stock plus preferred stock outstanding at year end divided by the preferred stock outstanding at year end.

The accompanying notes are an integral part of these financial statements.

DTF TAX-FREE INCOME INC.
NOTES TO FINANCIAL STATEMENTS
October 31, 2019

Note 1. Organization

DTF Tax-Free Income Inc. (the “Fund”) was incorporated under the laws of the State of Maryland on September 24, 1991. The Fund commenced operations on November 29, 1991 as a diversified, closed-end management investment company registered under the Investment Company Act of 1940, as amended (the “1940 Act”). The Fund’s investment objective is current income exempt from regular federal income tax consistent with preservation of capital.

Note 2. Significant Accounting Policies

The following are the significant accounting policies of the Fund.

A. Investment Valuation: Debt securities are generally valued based on the evaluated bid using prices provided by one or more dealers regularly making a market in that security, an independent pricing service, or quotes from broker-dealers, when such prices are believed to reflect the fair value of such securities and are generally classified as Level 2. The relative liquidity of some securities in the Fund’s portfolio may adversely affect the ability of the Fund to accurately value such securities. Any securities for which it is determined that market prices are unavailable or inappropriate are valued at fair value using a procedure determined in good faith by the Board of Directors and are classified as Level 2 or 3 based on the valuation inputs.

B. Investment Transactions and Investment Income: Securities transactions are recorded on the trade date. Realized gains and losses on sales of securities are determined on the identified cost basis. Interest income is recorded on the accrual basis. The Fund amortizes premiums and accretes discounts on securities using the effective interest method.

C. Federal Income Taxes: It is the Fund’s intention to comply with requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income and capital gains to its shareholders. Therefore, no provision for federal income or excise taxes is required. Management of the Fund has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. Since tax authorities can examine previously filed tax returns, the Fund’s tax returns filed for the tax years 2016 to 2019 are subject to such review.

D. Dividends and Distributions: The Fund declares and pays dividends on its common stock monthly from net investment income. Net capital gains, if any, in excess of capital loss carryforwards are expected to be distributed annually. Dividends and distributions are recorded on the ex-dividend date. Dividends on the Fund’s Variable Rate Muni-Fund Term Preferred Shares (“VMTP Shares”) are accrued on a daily basis and paid on a monthly basis and are determined as described in Note 7.

The amount and timing of distributions are generally determined in accordance with federal tax regulations, which may differ from U.S. generally accepted accounting principles.

E. Use of Estimates: The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

F. Accounting Standards: In 2017, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2017-08, which shortens the premium amortization period for callable debt. For public companies, the amendments are effective for financial statements issued for fiscal years beginning after December 15, 2018. At this time, management is evaluating the implications of ASU No. 2017-08 and its impact on the financial statements and accompanying notes.

DTF TAX-FREE INCOME INC.
NOTES TO FINANCIAL STATEMENTS—(Continued)
October 31, 2019

Note 3. Agreements and Management Arrangements

A. Adviser: The Fund has an Advisory Agreement with Duff & Phelps Investment Management Co. (the “Adviser”), an indirect, wholly owned subsidiary of Virtus Investment Partners, Inc. (“Virtus”). The investment advisory fee is payable monthly at an annual rate of 0.50% of the Fund’s average weekly managed assets, which is defined as the average weekly value of the total assets of the Fund minus the sum of all accrued liabilities of the Fund (other than the aggregate amount of any outstanding borrowings or other indebtedness constituting financial leverage).

B. Administrator: The Fund has an Administration Agreement with Robert W. Baird & Co. Incorporated (the “Administrator” or “Baird”). In October 2019, Baird became the successor by merger to J.J.B. Hilliard, W.L. Lyons, LLC, which it acquired in April 2019. The administration fee is payable quarterly at an annual rate of 0.14% of the Fund’s average weekly net assets, which is defined as the average weekly value of the total assets of the Fund minus the sum of all accrued liabilities of the Fund (including the aggregate amount of any outstanding borrowings or other indebtedness constituting financial leverage).

C. Directors: The Fund pays each director not affiliated with the Adviser an annual fee. Total fees paid to directors for the year ended October 31, 2019 were \$89,553.

D. Affiliated Shareholder: At October 31, 2019, Virtus Partners, Inc. (a wholly owned subsidiary of Virtus) held 34,265 shares of the Fund which represent 0.40% of shares of common stock outstanding. These shares may be sold at any time.

Note 4. Investment Transactions

Purchases and sales of investment securities (excluding short-term investments) for the year ended October 31, 2019 were \$20,752,862 and \$20,230,526, respectively.

Note 5. Distributions and Tax Information

At October 31, 2019, the federal tax cost and aggregate gross unrealized appreciation (depreciation) were as follows:

<u>Federal Tax Cost</u>	<u>Unrealized Appreciation</u>	<u>Unrealized Depreciation</u>	<u>Net Unrealized Appreciation</u>
\$183,544,017	\$13,052,006	\$(18,228)	\$13,033,778

The difference between the book basis and tax basis of unrealized appreciation (depreciation) and cost of investments is primarily attributable to the tax treatment of discount accretion on fixed income securities.

The tax character of distributions paid to common shareholders during the years ended October 31, 2019 and 2018 was as follows:

	<u>10/31/2019</u>	<u>10/31/2018</u>
<i>Distributions paid from:</i>		
Tax-exempt income	\$3,621,292	\$4,984,600
Ordinary income	26,039	1,465
Long-term capital gains	<u>1,027,382</u>	<u>310,392</u>
Total distributions	<u>\$4,674,713</u>	<u>\$5,296,457</u>

DTF TAX-FREE INCOME INC.
NOTES TO FINANCIAL STATEMENTS—(Continued)
October 31, 2019

At October 31, 2019, the components of distributable earnings on a tax basis were as follows:

Undistributed net tax-exempt income	\$897,261
Undistributed realized long-term capital gain	74,799
Net unrealized appreciation (depreciation)	13,033,778
	\$14,005,838

Note 6. Reclassification of Capital Accounts

Due to inherent differences in the recognition and distribution of income and realized gains (losses) under U.S. generally accepted accounting principles and for federal income tax purposes, permanent differences between book and tax basis reporting have been identified and appropriately reclassified on the Statement of Assets and Liabilities. At October 31, 2019, the following reclassifications were recorded:

Paid-in capital	Total distributable earnings (loss)
\$(32,036)	\$32,036

The reclassifications are attributable to expenses related to the Variable Rate MuniFund Term Preferred Shares offering. These reclassifications have no impact on the net asset value of the Fund.

Note 7. Variable Rate MuniFund Term Preferred Shares

The Fund has issued and outstanding 650 shares of Series 2021 Variable Rate MuniFund Term Preferred Shares (VMTP Shares) each with a liquidation preference of \$100,000. The VMTP Shares are a floating-rate form of preferred shares with a mandatory redemption date. The Fund is required to redeem all outstanding VMTP Shares on January 31, 2021, unless earlier redeemed, repurchased or extended. VMTP Shares are subject to optional and mandatory redemption in certain circumstances. The redemption price per share is equal to the sum of the liquidation value per share plus any accumulated but unpaid dividends and a redemption premium, if any.

Key terms of the series of VMTP Shares at October 31, 2019 are as follows:

Series	Shares Outstanding	Liquidation Preference	Weekly Rate Reset	Rate	Mandatory Redemption Date
2021	650	\$65,000,000	SIFMA Municipal Swap Index + 1.40%	2.52%	1/31/2021

The Fund incurred costs in connection with the issuance of the VMTP Shares. These costs were recorded as a deferred charge and are being amortized over the five year life of the VMTP Shares. Amortization of these deferred offering costs of \$32,036 is included under the caption “Interest expense and amortization of deferred offering costs on preferred shares” on the Statement of Operations and the unamortized balance is deducted from the carrying amount of the VMTP shares under the caption “Variable Rate MuniFund Term Preferred Shares” on the Statement of Assets and Liabilities.

Dividends on the VMTP Shares (which are treated as interest expense for financial reporting purposes) are accrued daily and paid monthly. The average daily liquidation value outstanding and the weighted daily average dividend rate of the VMTP Shares during the year ended October 31, 2019, were \$65,000,000 and 2.94%, respectively.

The VMTP Shares are not listed on any exchange or automated quotation system. The fair value of the VMTP Shares is estimated to be their liquidation preference. The VMTP Shares are categorized as Level 2 within the fair value hierarchy. The Fund is subject to certain restrictions relating to the VMTP Shares, such as maintaining certain asset

DTF TAX-FREE INCOME INC.
NOTES TO FINANCIAL STATEMENTS—(Continued)
October 31, 2019

coverage, effective leverage ratio and overcollateralization ratio requirements. Failure to comply with these restrictions could preclude the Fund from declaring any distributions to common shareholders or purchasing common shares and/or could trigger the mandatory redemption of the VMTP Shares at liquidation value.

Note 8. Indemnifications

Under the Fund's organizational documents, its officers and directors are indemnified against certain liabilities arising out of the performance of their duties to the Fund. In addition, in the normal course of business, the Fund enters into contracts that provide general indemnifications to other parties. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not occurred. However, the Fund has not had prior claims or losses pursuant to these arrangements and expects the risk of loss to be remote.

Note 9. Subsequent Events

Management has evaluated the impact of all subsequent events on the Fund through the date the financial statements were issued, and has determined that there were no subsequent events requiring recognition or disclosure in these financial statements.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders of
DTF Tax-Free Income Inc.:

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities of DTF Tax-Free Income Inc. (the “Fund”), including the schedule of investments, as of October 31, 2019, and the related statements of operations and cash flows for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the five years in the period then ended and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund at October 31, 2019, the results of its operations and its cash flows for the year then ended, the changes in its net assets for each of the two years in the period then ended and its financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements are the responsibility of the Fund’s management. Our responsibility is to express an opinion on the Fund’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Fund is not required to have, nor were we engaged to perform, an audit of the Fund’s internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Fund’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of October 31, 2019, by correspondence with the custodian and brokers. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Ernst & Young LLP

We have served as the auditor of one or more Duff & Phelps Investment Management Co. investment companies since 1991.

Chicago, Illinois
December 18, 2019

TAX INFORMATION (Unaudited)

Taxable distributions of ordinary income of \$8,899 were paid to preferred shareholders, and \$26,039 were paid to common shareholders during the taxable year ended October 31, 2019. The Fund designated and paid long-term capital gains dividends of \$351,026 to preferred shareholders and \$1,027,382 to common shareholders during the taxable year ended October 31, 2019. All of the other net investment income distributions paid by the Fund qualify and are designated as tax-exempt interest dividends for Federal income tax purposes.

INFORMATION ABOUT PROXY VOTING BY THE FUND (Unaudited)

Although the Fund does not typically hold voting securities, a description of the policies and procedures that the Fund uses to determine how to vote proxies relating to portfolio securities is available without charge, upon request, by calling the Administrator toll-free at (833) 604-3163 or is available on the Fund's website www.dpimc.com/df or on the SEC's website www.sec.gov.

INFORMATION ABOUT THE FUND'S PORTFOLIO HOLDINGS (Unaudited)

The Fund filed its complete schedule of portfolio holdings with the SEC for the first fiscal quarter (January 31) on Form N-Q and its third fiscal quarter (July 31) on Form NPORT-EX. For each subsequent fiscal quarter thereafter, the Fund will file a complete schedule of portfolio holdings with the SEC as an exhibit to its reports on Form NPORT-P. The Fund's Forms N-Q, NPORT-EX and NPORT-P are available on the SEC's website at www.sec.gov. In addition, the Fund's schedule of portfolio holdings is available without charge, upon request, by calling the Administrator toll-free at (833) 604-3163 or is available on the Fund's website at www.dpimc.com/df.

ADDITIONAL INFORMATION (Unaudited)

Since October 31, 2018: (i) there have been no material changes in the Fund's investment objectives or policies that have not been approved by the shareholders; (ii) there have been no changes in the Fund's charter or by-laws that would delay or prevent a change in control of the Fund which have not been approved by the shareholders; (iii) there have been no material changes in the principal risk factors associated with an investment in the Fund; and (iv) there have been no changes in the persons who are primarily responsible for the day-to-day management of the Fund's portfolio.

Additional information, if any, relating to the Fund's directors and officers, in addition to such information as is found elsewhere in the Annual Report, may be requested by contacting the Fund at the address provided in this report.

Notice is hereby given in accordance with Section 23(c) of the 1940 Act that the Fund may from time to time purchase its shares of common stock in the open market.

INFORMATION ABOUT DIRECTORS AND OFFICERS OF THE FUND (Unaudited)

Set forth below are the names and certain biographical information about the directors of the Fund. Directors are divided into three classes and are elected to serve staggered three-year terms. All of the directors are elected by the holders of the Fund’s common stock, except for Mr. Genetski and Ms. McNamara who are elected by the holders of the Fund’s preferred stock. All of the current directors of the Fund, with the exception of Mr. Partain, are classified as independent directors because none of them are “interested persons” of the Fund, as defined in the 1940 Act. Mr. Partain is an “interested person” of the Fund by reason of his position as President and Chief Executive Officer of the Fund and President, Chief Investment Officer and employee of the Adviser. The term “Fund Complex” refers to the Fund and all the other investment companies advised by affiliates of Virtus.

The address for all directors is c/o Duff & Phelps Investment Management Co., 200 South Wacker Drive, Suite 500, Chicago, Illinois 60606. All of the Fund’s directors currently serve on the Board of Directors of three other registered closed-end investment companies that are advised by Duff & Phelps Investment Management Co.: DNP Select Income Fund Inc. (“DNP”), Duff & Phelps Utility and Infrastructure Fund Inc. (“DPG”) and Duff & Phelps Utility and Corporate Bond Trust Inc. (“DUC”).

DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN (Unaudited)

Pursuant to the Fund's Dividend Reinvestment Plan (the "Plan"), common shareholders may elect to have all distributions of dividends and capital gains automatically reinvested by American Stock Transfer & Trust Company (the "Plan Agent") in shares of common stock of the Fund ("Fund Shares") pursuant to the Plan; provided that such election is subject to the power of the Board of Directors to declare capital gains distributions in the form of stock (if such a declaration is made by the Board of Directors, all shareholders who do not elect to receive cash will receive the distribution in the form of stock whether or not they elect to participate in the Plan). Common shareholders who do not participate in the Plan will receive all distributions in cash (except as described above) paid by check in United States dollars mailed directly to the shareholder of record (or if the shares are held in street or other nominee name, then to the nominee) by the Custodian, as dividend disbursing agent. Common shareholders who wish to participate in the Plan should contact the Fund at 6201 15th Avenue, Brooklyn, New York, 11219 or call toll free (866) 668-8552.

The Plan Agent serves as agent for the common shareholders in administering the Plan. After the Fund declares a dividend or determines to make a capital gain distribution, if (1) the market price is lower than net asset value, the participants in the Plan will receive the equivalent in Fund Shares valued at the market price determined as of the time of purchase (generally, the payment date of the dividend or distribution); or if (2) the market price of Fund Shares on the payment date of the dividend or distribution is equal to or exceeds their net asset value, participants will be issued Fund Shares at the higher of net asset value or 95% of the market price. This discount reflects savings in underwriting and other costs that the Fund otherwise will be required to incur to raise additional capital. If net asset value exceeds the market price of Fund Shares on the payment date or the Fund declares a dividend or other distribution payable only in cash (i.e., if the Board of Directors precludes reinvestment in Fund Shares for that purpose), the Plan Agent will, as agent for the participants, receive the cash payment and use it to buy Fund Shares in the open market, on the New York Stock Exchange, other national securities exchanges on which the Fund's common stock is listed or elsewhere, for the participants' accounts. If, before the Plan Agent has completed its purchases, the market price exceeds the net asset value of a Fund Share, the average per share purchase price paid by the Plan Agent may exceed the net asset value of Fund Shares, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund. The Fund will not issue shares under the Plan below net asset value.

Participants in the Plan may withdraw from the Plan upon written notice to the Plan Agent and will receive certificates for whole Fund Shares and a cash payment will be made for any fraction of a Fund Share.

There is no charge to participants for reinvesting dividends or capital gain distributions, except for certain brokerage commissions, as described below. The Plan Agent's fees for the handling of the reinvestment of dividends and distributions will be paid by the Fund. There will be no brokerage commissions charged with respect to shares issued directly by the Fund. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open market purchases in connection with the reinvestment of dividends and distributions. The automatic reinvestment of dividends and distributions will not relieve participants of any federal income tax that may be payable on such dividends or distributions.

Experience under the Plan may indicate that changes are desirable. Accordingly, the Fund reserves the right to amend or terminate the Plan as applied to any dividend or distribution paid subsequent to written notice of the change sent to all shareholders of the Fund at least 90 days before the record date for the dividend or distribution. The Plan also may be amended or terminated by the Plan Agent upon at least 90 days written notice to all common shareholders of the Fund. All correspondence concerning the Plan should be directed to the Fund at the address on the front of this report.

The Plan permits Plan participants to periodically purchase additional shares of common stock through the Plan by delivering to the Plan Agent a check (or authorizing an electronic fund transfer) for at least \$100, but not more than \$5,000, in any month. The Plan Agent will use the funds to purchase shares in the open market or in private transactions as described above with respect to reinvestment of dividends and distributions. Purchases made pursuant to this feature of the Plan will be made commencing at the time of the first dividend or distribution payment following the second business day after receipt of the funds for additional purchases, and may be aggregated with purchases of shares for reinvestment of the dividends and distributions.

Shares will be allocated to the accounts of participants purchasing additional shares at the average price per share, plus a service charge imposed by the Plan Agent and brokerage commissions (or equivalent purchase costs) paid by the Plan Agent for all shares purchased by it, including for reinvestment of dividends and distributions. Checks drawn on a foreign bank are subject to collection and collection fees, and will be invested at the time of the next distribution after funds are collected by the Plan Agent.

The Plan Agent will make every effort to invest funds promptly, and in no event more than 30 days after the Plan Agent receives a dividend or distribution, except where postponement is deemed necessary to comply with applicable provisions of the federal securities laws.

Funds sent to the Plan Agent for voluntary additional share investment may be recalled by the participant by written notice received by the Plan Agent not later than two business days before the next distribution payment date. If for any reason a regular monthly distribution is not paid by the Fund, funds for voluntary additional share investment will be returned to the participant, unless the participant specifically directs that they continue to be held by the Plan Agent for subsequent investment.
