

DNP Select Income Fund Inc.

4th

Annual Report

October 31, 2016

Fund Distributions and Managed Distribution Plan: DNP Select Income Fund Inc. (the “Fund”) has been paying a regular 6.5 cent per share monthly distribution on its common stock since July 1997. In February 2007, the Board of Directors adopted a Managed Distribution Plan, which provides for the Fund to continue to make a monthly distribution on its common stock of 6.5 cents per share. Under the Managed Distribution Plan, the Fund will distribute all available investment income to shareholders, consistent with the Fund’s primary investment objective. If and when sufficient investment income is not available on a monthly basis, the Fund will distribute long-term capital gains and/or return capital to its shareholders in order to maintain the steady distribution level that has been approved by the Board. If the Fund estimates that it has distributed more than its income and capital gains in a particular period, a portion of your distribution may be a return of capital. A return of capital may occur, for example, when some or all of the money that you invested in the Fund is paid back to you. A return of capital distribution does not necessarily reflect the Fund’s investment performance and should not be confused with “yield” or “income.”

To the extent that the Fund uses capital gains and/or return of capital to supplement its investment income, you should not draw any conclusions about the Fund’s investment performance from the amount of the Fund’s distributions or from the terms of the Fund’s Managed Distribution Plan.

Whenever a monthly distribution includes a capital gain or return of capital component, the Fund provides you with a written statement indicating the sources of the distribution and the amount derived from each source. As the most recent monthly statement from the Fund indicated, the cumulative distributions paid this fiscal year to date through November 10 were estimated to be composed of net investment income, capital gains and return of capital.

The amounts and sources of distributions reported monthly in statements from the Fund are only estimates and are not provided for tax reporting purposes. The actual amounts and sources of the amounts for tax reporting purposes will depend upon the Fund’s investment experience during the remainder of its fiscal year and may be subject to changes based on tax regulations. The Fund will send you a Form 1099-DIV for the calendar year that will tell you how to report these distributions for federal income tax purposes.

The Board reviews the operation of the Managed Distribution Plan on a quarterly basis, with the most recent review having been conducted in December 2016, and the Adviser uses data provided by an independent consultant to review for the Board the Managed Distribution Plan annually. The Board may amend, suspend or terminate the Managed Distribution Plan without prior notice to shareholders if it deems such action to be in the best interests of the Fund and its shareholders. For example, the Board might take such action if the Managed Distribution Plan had the effect of shrinking the Fund’s assets to a level that was determined to be detrimental to Fund shareholders. The suspension or termination of the Managed Distribution Plan could have the effect of creating a trading discount (if the Fund’s stock is trading at or above net asset value), widening an existing trading discount, or decreasing an existing premium.

The Managed Distribution Plan is described in a Question and Answer format on your Fund’s website, www.dnpselectincome.com, and discussed in the section of management’s letter captioned “About Your Fund.” The tax characterization of the Fund’s distributions for the last 5 years can also be found on the website under the “Tax Information” tab.

Dear Fellow Shareholders:

Performance Review: Consistent with its primary objective of current income and long-term growth of income, and its Managed Distribution Plan, the Fund declared twelve monthly distributions of 6.5 cents per share of common stock during the 2016 fiscal year. The 6.5 cent per share monthly rate, without compounding, would be 78 cents annualized, which is equal to 7.73% of the October 31, 2016, closing price of \$10.09 per share. Please refer to the inside front cover of this report and the portion of this letter captioned “About Your Fund” for important information about the Fund and its Managed Distribution Plan.

Your Fund had a total return (income plus change in market price) of 12.1% for the year ended October 31, 2016, which is lower than the 15.9% total return of the composite of the S&P 500[®] Utilities Index and the Bloomberg Barclays U.S. Utility Bond Index, weighted to reflect the stock and bond ratio of the Fund. In comparison, the S&P 500[®] Utilities Index — a stock-only index — had a total return of 17.1% over that same period.

On a longer-term basis, as of October 31, 2016, your Fund had a five-year annualized total return of 7.4% on a market value basis, which is less than the 10.4% return of the composite of the S&P 500[®] Utilities Index and the Bloomberg Barclays U.S. Utility Bond Index, weighted to reflect the stock and bond ratio of the Fund. In comparison, the S&P 500[®] Utilities Index had an annualized total return during that period of 11.5%.

The table below compares the performance of your Fund to various market benchmarks. It is important to note that the composite and index returns referred to in this letter include no fees or expenses, whereas the Fund’s returns are net of expenses.

| Total Return¹ | | | |
|---|-----------------|-------------------------------------|------------------------------------|
| For the period indicated through October 31, 2016 | | | |
| | One Year | Three Years (annualized) | Five Years (annualized) |
| DNP Select Income Fund Inc. | | | |
| Market Value ² | 12.1% | 9.9% | 7.4% |
| Net Asset Value ³ | 17.3% | 10.4% | 12.5% |
| Composite Index ⁴ | 15.9% | 11.5% | 10.4% |
| S&P 500 [®] Utilities Index ⁴ | 17.1% | 12.5% | 11.5% |
| Bloomberg Barclays U.S. Utility Bond Index ⁴ | 8.4% | 6.0% | 4.9% |

¹ Past performance is not indicative of future results. Current performance may be lower or higher than performance in historical periods.

² Total return on market value assumes a purchase of common stock at the opening market price on the first business day and a sale at the closing market price on the last business day of the period shown in the table and assumes reinvestment of dividends at the actual reinvestment prices obtained under the terms of the Fund’s dividend reinvestment plan. In addition, when buying or selling stock, you would ordinarily pay brokerage expenses. Because brokerage expenses are not reflected in the above calculations, your total return net of brokerage expenses would be lower than the total return on market value shown in the table. Source: Administrator of the Fund.

³ Total return on NAV uses the same methodology as is described in note 2, but with use of NAV for beginning, ending and reinvestment values. Because the Fund’s expenses (ratios detailed on page 14 of this report) reduce the Fund’s NAV, they are already reflected in the Fund’s total return on NAV shown in the table. NAV represents the underlying value of the Fund’s net assets, but the market price per share may be higher or lower than NAV. Source: Administrator of the Fund.

⁴ The Composite Index is a composite of the returns of the S&P 500[®] Utilities Index and the Bloomberg Barclays U.S. Utility Bond Index (formerly known as the Barclays U.S. Utility Bond Index), weighted to reflect the stock

and bond ratio of the Fund. The indices are calculated on a total return basis with dividends reinvested. Indices are unmanaged; their returns do not reflect any fees, expenses or sales charges; and they are not available for direct investment. Performance returns for the S&P 500® Utilities Index and Bloomberg Barclays U.S. Utility Bond Index were obtained from Bloomberg LP.

Impact of the Presidential Election on the Fund: The presidential election campaign is over — finally — and the results may have come as a surprise to many investors. The portfolio managers at the Fund’s investment adviser, Duff & Phelps Investment Management Co., have spent a significant amount of time discussing the various impacts the election could have on the Fund’s investments. While there are still a number of uncertainties and unknowns about the policies of a Trump administration, we have some initial impressions of how each of the industries we invest in may be affected.

During the campaign, President-elect Trump was very vocal about supporting the coal industry and overturning the Clean Power Plan (CPP) that was drawn up by the Environmental Protection Agency (EPA). At first glance, that may seem like a negative for the utility industry, particularly the companies investing heavily in renewables. But looking past the headlines, the reality is likely to be much different. Even if the CPP is dismantled, generation of electricity from coal is going to continue to decline. This is due to the unfavorable economics of running a coal plant as compared to generating electricity using natural gas or renewables (mainly wind). The path has already been laid; the question now is the speed at which the industry proceeds down that road. It is also important to keep in mind that the utility industry is heavily regulated at the state level. Many of those regulators have mandated investment not only in cleaner generation, but in the transmission and distribution portion of the grid as well. Consequently, we continue to see attractive opportunities for dividends and capital growth from regulated utilities.

The Trump victory was viewed more favorably by the market for the Fund’s midstream energy and master limited partnership (MLP) holdings. Generally, the main positive impact is expected to be seen in the issuance of permits for midstream pipelines. Over the last couple of years, it has become increasingly difficult to get approval to build new midstream pipelines in the U.S., as was the case with Keystone XL and, most recently, the Dakota Access Pipeline. With a focus on U.S. jobs, infrastructure investment and reducing government regulation, approving construction on new pipelines would seem to be a logical early move by the new administration. We continue to be optimistic about the long term positioning of the midstream energy companies and the MLPs to meet the growing need for transportation of oil and gas from U.S. shale basins.

Consolidation has been a key theme recently in the telecommunications industry, which you would expect to fare well under a Republican administration and Congress. However, the largest telecom acquisition announced this year drew immediate fire from Trump on the campaign trail. It is unclear at this point how difficult it will be for the AT&T/Time Warner deal to win approval. Historically, vertical mergers, such as this one, have not encountered significant resistance at the Department of Justice, so much will depend on the presidential appointments in that Department. A potential merger between T-Mobile US and Sprint, long thought to be impossible to get approved, could be contemplated under the new administration. If this were to happen, it could have a major long-term effect on the U.S. wireless industry. We will continue to closely watch developments in Washington to ascertain the impact on the telecom industry.

The Ongoing Saga of the Federal Reserve and Interest Rates: Late last year, the Federal Open Market Committee (FOMC), the committee within the Federal Reserve that sets domestic monetary policy, began to reverse the highly accommodative policy of the previous seven years. On December 16, 2015, the FOMC tightened monetary policy for the first time in more than a decade, when it raised the target range for the federal funds rate to 0.25% to 0.50%. As a result, some investors speculated that the era of unprecedented U.S. monetary stimulus would soon come to an end, with many forecasters predicting that the target federal funds rate would see multiple increases during 2016. However, persistent bouts of volatility and fears of a global recession helped keep any further rate increases on hold during most of the year. Policy makers frequently indicated that additional moves toward a more normalized monetary policy would be data dependent and would likely occur at a gradual pace.

On December 14, 2016, the FOMC raised the target range for the federal funds rate to 0.50% to 0.75%. It is important to note that, even after the move, monetary policy remains highly accommodative and the timing and magnitude of additional moves is likely to remain a topic of debate. While policy makers are likely to remain divided between those who fear the potential for a pick-up in inflation and those who worry about the risk of raising rates too fast, we believe that choppy economic growth and moderate inflation increase the likelihood that the FOMC will move cautiously as it endeavors to normalize monetary policy.

If the U.S. economy continues to post sub-par growth, the debate over the FOMC’s ability to significantly raise the federal funds target rate against a backdrop of low inflation and modest global growth is likely to continue. Given growing uncertainties in the global economy, mixed economic indicators at home and ongoing geopolitical tension, the fixed income market is likely to remain highly volatile and reactive to the tone of economic data. In the near term, a fragile U.S. economic recovery and relatively low global interest rates should limit upward pressure on U.S. Treasury yields. Over the longer term, a self-sustaining economic recovery, rising inflation expectations and growing budget deficits could set the stage for a sustained and meaningful rise in interest rates.

Board of Directors Meeting: At the regular September 2016 Board of Directors’ meeting, the Board declared the following monthly dividends:

| <u>Cents Per Share</u> | <u>Record Date</u> | <u>Payable Date</u> |
|------------------------|--------------------|---------------------|
| 6.5 | October 31 | November 10 |
| 6.5 | November 30 | December 12 |
| 6.5 | December 30 | January 10 |

At the regular December 2016 Board of Directors’ meeting, the Board declared the following monthly dividends:

| <u>Cents Per Share</u> | <u>Record Date</u> | <u>Payable Date</u> |
|------------------------|--------------------|---------------------|
| 6.5 | January 31 | February 10 |
| 6.5 | February 28 | March 10 |
| 6.5 | March 31 | April 10 |

About Your Fund: The Fund seeks to achieve its investment objectives by investing primarily in the public utility industry. Under normal market conditions, more than 65% of the Fund’s total assets are invested in a diversified portfolio of equity and fixed income securities of public utility companies engaged in the production, transmission or distribution of electric energy, gas or telephone services. The Fund does not currently use derivatives and has no investments in complex or structured investment vehicles.

The Fund seeks to provide investors with a stable monthly dividend that is primarily derived from current fiscal year earnings and profits. The Investment Company Act of 1940 and related SEC rules generally prohibit investment companies from distributing long-term capital gains more often than once in a twelve-month period. However, in 2008, the SEC granted the Fund’s request for exemptive relief from that prohibition, and the Fund is now permitted, subject to certain conditions, to make periodic distributions of long-term capital gains as frequently as twelve times a year. In connection with the exemptive relief, in February 2008 the Board of Directors reaffirmed the current 6.5 cent per share monthly distribution rate and formalized the monthly distribution process by adopting a Managed Distribution Plan (MDP). The Board reviews the operation of the MDP on a quarterly basis, with the most recent review having been conducted in December 2016, and the Adviser uses data provided by an independent consultant to review for the Board the MDP annually. The MDP is described on the inside front cover of this report and in a Question and Answer format on the Fund’s website, www.dnpselectincome.com.

On July 22, 2016, the Fund issued \$300 million of secured notes, which were privately placed with institutional investors. The secured notes pay interest at fixed rates and were issued in two series that are scheduled to mature in 7 and 10 years after issuance. The Fund used the entire proceeds from the issuance to repay \$300 million of the \$700 million principal outstanding under its committed lending facility.

As of October 31, 2016, the Fund's total leverage consisted of \$300 million of floating rate preferred stock, \$300 million of fixed rate secured notes and \$400 million of floating rate senior debt outstanding under a committed loan facility. On that date the total amount of leverage represented approximately 27% of the Fund's total assets. The newly issued secured notes, like the preferred stock and committed lending facility, provide leverage for the Fund's common shareholders.

The use of leverage enables the Fund to borrow at advantageous interest rates and invest in securities with higher expected rates of return. The amount and type of leverage used is reviewed by the Board of Directors based on the Fund's expected earnings relative to the anticipated costs (including fees and expenses) associated with the leverage. In addition, the long-term expected benefits of leverage are weighed against the potential effect of increasing the volatility of both the Fund's net asset value and the market value of its common stock. Historically, the tendency of the U.S. yield curve to exhibit a positive slope (i.e., long-term rates higher than short-term rates) has fostered an environment in which leverage can make a positive contribution to the earnings of the Fund. There is no assurance that this will continue to be the case in the future. A decline in the difference between short-term and long-term rates could have an adverse effect on the income provided from leverage. If the Fund were to conclude that the use of leverage was likely to cease being beneficial, it could modify the amount and type of leverage it uses or eliminate the use of leverage entirely.

Along with the influence on the income provided from leverage, the level of interest rates can be a primary driver of bond returns, including the return on your Fund's fixed income investments. For example, an extended environment of historically low interest rates adds an element of reinvestment risk, since the proceeds of maturing bonds may need to be reinvested in lower yielding securities. Alternatively, a sudden or unexpected rise in interest rates would likely reduce the total return of fixed income investments, since higher interest rates could be expected to depress the valuations of fixed rate bonds held in a portfolio.

Maturity and duration are measures of the sensitivity of a fund's fixed income investments to changes in interest rates. More specifically, duration refers to the percentage change in a bond's price for a given change in rates (typically +/- 100 basis points). In general, the greater the average maturity and duration of a portfolio, the greater is the potential percentage price volatility for a given change in interest rates. As of October 31, 2016, your Fund's fixed income investments had an average maturity of 6.1 years and duration of 4.3 years, while the Bloomberg Barclays U.S. Utility Bond Index had an average maturity of 14.8 years and duration of 9.8 years.

As a practical matter, it is not possible for your Fund's fixed income investments to be completely insulated from unexpected moves in interest rates. However, Fund management believes that over the long term the conservative distribution of fixed income investments along the yield curve positions your Fund to take advantage of future opportunities while limiting volatility to some degree.

(a) All or a portion of this security has been pledged as collateral for borrowings and made available for loan.

(b) All or a portion of this security has been loaned.

The percentage shown for each investment category is the total value of that category as a percentage of the net assets applicable to common stock of the Fund.

The accompanying notes are an integral part of these financial statements.

DNP SELECT INCOME FUND INC.
SCHEDULE OF INVESTMENTS—(Continued)
October 31, 2016

The Fund's investments are carried at fair value which is defined as the price that the Fund would receive upon selling an investment in a timely transaction to an independent buyer in the principal or most advantageous market of the investment. The three-tier hierarchy of inputs established to classify fair value measurements for disclosure purposes is summarized in the three broad levels listed below.

Level 1—quoted prices in active markets for identical securities

Level 2—other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risks, etc.)

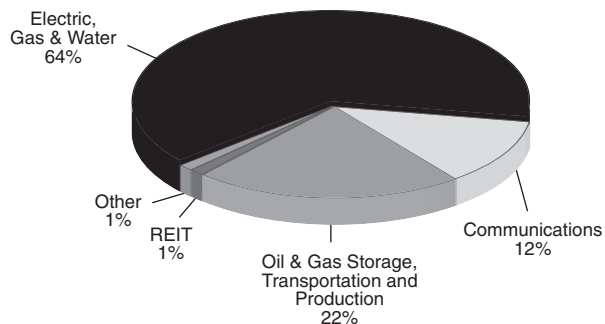

Level 3—significant unobservable inputs (including the Fund's own assumptions in determining fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in these securities. The following is a summary of the inputs used to value each of the Fund's investments at October 31, 2016:

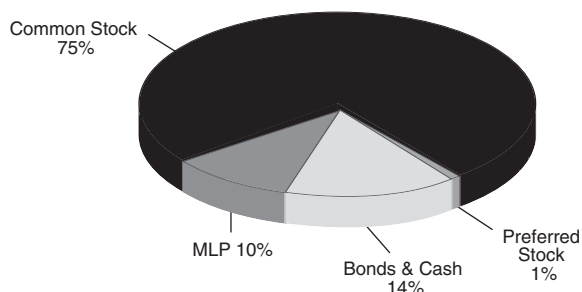

| | Level 1 | Level 2 |
|-------------------------------------|------------------------|----------------------|
| Common stocks & MLP interests | \$3,147,970,953 | — |
| Preferred stocks | 42,785,742 | — |
| Bonds | — | \$453,724,695 |
| Total | <u>\$3,190,756,695</u> | <u>\$453,724,695</u> |

There were no Level 3 priced securities held and there were no transfers between Level 1 and Level 2 related to securities held at October 31, 2016.

SECTOR ALLOCATION*

ASSET CLASS ALLOCATION*

* Percentages are based on total investments rather than total net assets applicable to common stock and include securities pledged as collateral for the Fund's credit facility.

The accompanying notes are an integral part of these financial statements.

* Annualized

⁽¹⁾ The auction preferred stock was fully redeemed in 2012.

⁽²⁾ Total return on market value assumes a purchase of common stock at the opening market price on the first day and a sale at the closing market price on the last day of each period shown in the table and assumes reinvestment of dividends at the actual reinvestment prices obtained under the terms of the Fund's dividend reinvestment plan. Total return on net asset value uses the same methodology, but with use of net asset value for beginning, ending and reinvestment values.

The accompanying notes are an integral part of these financial statements.

DNP SELECT INCOME FUND INC.
NOTES TO FINANCIAL STATEMENTS
October 31, 2016

Note 1. Organization:

DNP Select Income Fund Inc. (the “Fund”) was incorporated under the laws of the State of Maryland on November 26, 1986. The Fund commenced operations on January 21, 1987, as a closed-end diversified management investment company registered under the Investment Company Act of 1940 (the “1940 Act”). The primary investment objectives of the Fund are current income and long-term growth of income. Capital appreciation is a secondary objective. In 2013, the Fund changed its fiscal year end to October 31 from December 31.

Note 2. Significant Accounting Policies:

The following are the significant accounting policies of the Fund:

A. Investment Valuation: Equity securities traded on a national or foreign securities exchange or traded over-the counter and quoted on the NASDAQ Stock Market are valued at the last reported sale price or, if there was no sale on the valuation date, then the security is valued at the mean of the bid and ask prices, in each case using valuation data provided by an independent pricing service, and are generally classified as Level 1. Equity securities traded on more than one securities exchange shall be valued at the last sale price on the business day as of which such value is being determined at the close of the exchange representing the principal market for such securities and are classified as Level 1. If there was no sale on the valuation date, then the security is valued at the mean of the closing bid and ask prices of the exchange representing the principal market for such securities. Debt securities are valued at the mean of the bid and ask prices provided by an independent pricing service when such prices are believed to reflect the fair value of such securities and are generally classified as Level 2. Any securities for which it is determined that market prices are unavailable or inappropriate are valued at a fair value using a procedure determined in good faith by the Board of Directors and are classified as Level 2 or 3 based on the valuation inputs.

B. Investment Transactions and Investment Income: Security transactions are recorded on the trade date. Realized gains or losses from sales of securities are determined on the identified cost basis. Dividend income is recognized on the ex-dividend date. Interest income and expense are recognized on the accrual basis. Discounts and premiums on securities are amortized or accreted over the lives of the respective securities for financial reporting purposes. Discounts and premiums are not amortized or accreted for tax purposes.

The Fund invests in master limited partnerships (“MLPs”) which make distributions that are primarily attributable to return of capital. Dividend income is recorded using management’s estimate of the percentage of income included in the distributions received from the MLP investments based on their historical dividend results. Distributions received in excess of this estimated amount are recorded as a reduction of cost of investments (i.e., a return of capital). The actual amounts of income and return of capital are only determined by each MLP after its fiscal year-end and may differ from the estimated amounts. For the year ended October 31, 2016, 100% of the MLP distributions were treated as a return of capital.

DNP SELECT INCOME FUND INC.
NOTES TO FINANCIAL STATEMENTS—(Continued)
October 31, 2016

C. Federal Income Taxes: It is the Fund's intention to comply with requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income and capital gains to its shareholders. Therefore, no provision for Federal income or excise taxes is required. Management of the Fund has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. Since tax authorities can examine previously filed tax returns, the Fund's tax returns filed for the tax years 2013 to 2016 are subject to review.

D. Foreign Currency Translation: Investment securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at the date of valuation at the mean of the quoted bid and asked prices of such currencies. Purchases and sales of investment securities and income and expense items denominated in foreign currencies are translated into U.S. dollar amounts at the rate of exchange prevailing on the respective dates of such transactions. The Fund does not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gain or loss on investments.

E. Use of Estimates: The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Note 3. Agreements and Management Arrangements:

A. Adviser and Administrator: The Fund has an Advisory Agreement with Duff & Phelps Investment Management Co. (the "Adviser") an indirect, wholly owned subsidiary of Virtus Investment Partners, Inc. ("Virtus"), to provide professional investment management services for the Fund and has an Administration Agreement with J. J. B. Hilliard, W. L. Lyons, LLC (the "Administrator") to provide administrative and management services for the Fund. The Adviser receives a quarterly fee at an annual rate of 0.60% of the Average Weekly Managed Assets of the Fund up to \$1.5 billion and 0.50% of Average Weekly Managed Assets in excess thereof. The Administrator receives a quarterly fee at annual rates of 0.20% of Average Weekly Managed Assets up to \$1 billion, and 0.10% of Average Weekly Managed Assets over \$1 billion. For purposes of the foregoing calculations, "Average Weekly Managed Assets" is defined as the average weekly value of the total assets of the Fund minus the sum of all accrued liabilities of the Fund (other than the aggregate amount of any outstanding borrowings or other indebtedness constituting financial leverage).

B. Directors: The Fund pays each director not affiliated with the Adviser an annual fee plus a fee for certain meetings of the board or committees of the board attended. Total fees paid to directors for the year ended October 31, 2016 were \$402,703.

C. Affiliated Shareholder: At October 31, 2016, Virtus Partners, Inc. (a wholly owned subsidiary of Virtus) held 209,926 shares of the Fund, which represent 0.07% of the shares of common stock outstanding. These shares may be sold at any time.

DNP SELECT INCOME FUND INC.
NOTES TO FINANCIAL STATEMENTS—(Continued)
October 31, 2016

Note 4. Investment Transactions:

Purchases and sales of investment securities (excluding short-term investments) for the year ended October 31, 2016 were \$549,710,292 and \$605,262,638, respectively.

Note 5. Distributions and Tax Information:

At October 31, 2016, the federal tax cost and aggregate gross unrealized appreciation (depreciation) were as follows:

| <u>Federal Tax Cost</u> | <u>Unrealized Appreciation</u> | <u>Unrealized Depreciation</u> | <u>Net Unrealized Appreciation</u> |
|-------------------------|------------------------------------|------------------------------------|--|
| \$2,891,122,374 | \$899,656,730 | \$(146,297,714) | \$753,359,016 |

The difference between the book basis and tax basis of unrealized appreciation (depreciation) and cost of investments is primarily attributable to MLP earnings and basis adjustments, the tax deferral of wash sales losses, and the accretion of market discount and amortization of premiums.

The Fund declares and pays monthly dividends on its common shares of a stated amount per share. Subject to approval and oversight by the Fund's Board of Directors, the Fund seeks to maintain a stable distribution level (a Managed Distribution Plan) consistent with the Fund's primary investment objective of current income. If and when sufficient investment income is not available on a monthly basis, the Fund will distribute long-term capital gains and/or return capital in order to maintain the \$0.065 per common share distribution level. The amount and timing of distributions are determined in accordance with federal tax regulations, which may differ from U.S. generally accepted accounting principles.

The tax character of distributions paid to common shareholders during the years ended October 31, 2016 and 2015 was as follows:

| | <u>10/31/16</u> | <u>10/31/15</u> |
|---------------------------------|-----------------|-----------------|
| <i>Distributions paid from:</i> | | |
| Ordinary income | \$87,853,746 | \$99,370,666 |
| Long-term capital gains | 95,011,267 | 95,170,055 |
| Return of capital | 36,780,790 | 22,140,960 |
| Total distributions | \$219,645,803 | \$216,681,681 |

At October 31, 2016, the components of distributable earnings on a tax basis were as follows:

| | |
|---|---------------|
| Undistributed net ordinary income | \$0 |
| Undistributed long-term capital gains | 0 |
| Net unrealized appreciation | 753,333,383 |
| Other ordinary timing differences | (19,183,545) |
| | \$734,149,838 |

DNP SELECT INCOME FUND INC.
NOTES TO FINANCIAL STATEMENTS—(Continued)
October 31, 2016

Note 6. Reclassification of Capital Accounts:

Due to inherent differences in the recognition and distribution of income and realized gains/losses under U.S. generally accepted accounting principles and for federal income tax purposes, permanent differences between book and tax basis reporting have been identified and appropriately reclassified on the Statement of Assets and Liabilities. At October 31, 2016, the following reclassifications were recorded:

| <u>Paid-in capital</u> | <u>Accumulated net realized loss on investments</u> | <u>Distributions in excess of net investment income</u> |
|------------------------|---|---|
| \$562,823 | \$(8,944,984) | \$8,382,161 |

The reclassifications primarily relate to premium amortization, MLP recharacterization of gains and recharacterization of distributions. These reclassifications have no impact on the net asset value of the Fund.

Note 7. Debt Financing:

The Fund has a Committed Facility Agreement (the “Facility”) with a commercial bank (the “Bank”) that allows the Fund to borrow cash. The Fund has also issued Secured Notes (the “Notes”). The Facility and Notes rank pari passu and are senior, with priority in all respects to the outstanding common and preferred stock as to the payment of dividends and with respect to the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund. Key information regarding the Facility and Notes is detailed below.

A. Borrowings Under the Facility: At the end of the fiscal year, the Fund’s borrowing limit was \$400,000,000. Throughout the fiscal year, the Fund’s borrowing limit ranged between \$400,000,000 and \$700,000,000. Borrowings under the Facility are collateralized by certain assets of the Fund (the “Hypothecated Securities”). The Fund expressly grants the Bank the right to re-register the Hypothecated Securities in its own name or in another name other than the Fund’s and to pledge, repledge, hypothecate, rehypothecate, sell, lend or otherwise transfer or use the Hypothecated Securities. Interest is charged at 3 month LIBOR (London Inter-bank Offered Rate) plus an additional percentage rate of 1.15% on the amount borrowed. A commitment fee of 0.90% on any undrawn balance is also paid and is included in interest expense and fees on the Statement of Operations. The Bank has the ability to require repayment of the Facility upon 179 days’ notice or following an event of default. For the year ended October 31, 2016, the average daily borrowings under the Facility and the weighted daily average interest rate were \$616,393,443 and 1.58%, respectively. As of October 31, 2016, the amount of such outstanding borrowings was \$400,000,000 and the applicable interest rate was 2.03%.

The Bank has the ability to borrow the Hypothecated Securities (“Rehypothecated Securities”). The Fund is entitled to receive a fee from the Bank in connection with any borrowing of Rehypothecated Securities. The fee is computed daily based on a percentage of the difference between the fair market rate as determined by the Bank and the Fed Funds Open and is paid monthly. The Fund can designate any Hypothecated Security as ineligible for rehypothecation and can recall any Rehypothecated Security at any time and if the Bank fails to return it (or an equivalent security) in a timely fashion, the Bank will be liable to the Fund for the ultimate delivery of such security and certain costs associated with delayed delivery. In the event the Bank does not return the security or an equivalent security, the Fund will have the right to, among other things, apply and set off an amount equal to 100% of the then-current fair market value of such Rehypothecated Securities against any amounts owed to the Bank under the

DNP SELECT INCOME FUND INC.
NOTES TO FINANCIAL STATEMENTS—(Continued)
October 31, 2016

Facility. The Fund is entitled to receive an amount equal to any and all interest, dividends or distributions paid or distributed with respect to any Hypothecated Security on the payment date. At October 31, 2016, Hypothecated Securities under the Facility had a market value of \$1,864,710,976 and Rehypothecated Securities had a market value of \$345,830,726. If at the close of any business day, the value of all outstanding Rehypothecated Securities exceeds the value of the Fund's borrowings, the Bank shall promptly, at its option, either reduce the amount of the outstanding Rehypothecated Securities or deliver an amount of cash at least equal to the excess amount.

B. Notes: On July 22, 2016, the Fund completed a private placement of \$300,000,000 of Notes in two fixed-rate series. Net proceeds from the issuances were used to reduce the amount of the Fund's borrowing under its Facility. The Notes are secured by a lien on all assets of the Fund of every kind, including all securities and all other investment property, equal and ratable with the liens securing the Facility. The Notes are not listed on any exchange or automated quotation system.

Key terms of each series of secured notes is as follows:

| <u>Series</u> | <u>Amount</u> | <u>Rate</u> | <u>Maturity</u> | <u>Estimated Fair Value</u> |
|---------------|----------------------|-------------|-----------------|-----------------------------|
| A | \$100,000,000 | 2.76% | 7/22/23 | \$99,110,000 |
| B | <u>200,000,000</u> | 3.00% | 7/22/26 | <u>197,180,000</u> |
| | <u>\$300,000,000</u> | | | <u>\$296,290,000</u> |

The Fund incurred costs in connection with the issuance of the Notes. These costs were recorded as a deferred charge and are being amortized over the respective life of each series of Notes. Amortization of these offering costs of \$115,884 is included under the caption "Interest expense and amortization of deferred offering costs on secured notes" on the Statement of Operations and the unamortized balance is deducted from the carrying amount of the Notes under the caption "Secured notes" on the Statement of Assets and Liabilities.

Holders of the Notes are entitled to receive semi-annual interest payments until maturity. The Notes accrue interest at the annual fixed rate indicated above. The Notes are subject to optional and mandatory redemption in certain circumstances and subject to certain prepayment penalties and premiums.

The estimated fair value of the Notes was calculated, for disclosure purposes, based on estimated market yields and credit spreads for comparable instruments or representative indices with similar maturity, terms and structure. The Notes are categorized as Level 2 within the fair value hierarchy.

Note 8. Floating Rate Mandatory Redeemable Preferred Shares:

In 2014, the Fund issued 3,000 Floating Rate Mandatory Redeemable Preferred Shares ("MRP Shares") in four series each with a liquidation preference of \$100,000 per share. Proceeds from the issuances were used to redeem all of the remaining outstanding remarketed preferred shares and to reduce the size of the Fund's credit facility.

DNP SELECT INCOME FUND INC.
NOTES TO FINANCIAL STATEMENTS—(Continued)
October 31, 2016

Key terms of each series of MRP Shares at October 31, 2016 are as follows:

| <u>Series</u> | <u>Shares Outstanding</u> | <u>Liquidation Preference</u> | <u>Quarterly Rate Reset</u> | <u>Rate</u> | <u>Mandatory Redemption Date</u> |
|---------------|-------------------------------|-----------------------------------|-----------------------------|-------------|--|
| A | 1,320 | \$132,000,000 | 3M LIBOR +2.00% | 2.85% | 4/1/2019 |
| B | 600 | 60,000,000 | 3M LIBOR +2.05% | 2.90% | 4/1/2021 |
| C | 750 | 75,000,000 | 3M LIBOR +2.15% | 3.00% | 4/1/2024 |
| D | 330 | 33,000,000 | 3M LIBOR +1.95% | 2.80% | 4/1/2021 |
| | <u>3,000</u> | <u>\$300,000,000</u> | | | |

The Fund incurred costs in connection with the issuance of the MRP Shares. These cost were recorded as a deferred charge and are being amortized over the respective life of each series of MRP Shares. Amortization of these deferred offering costs of \$681,565 is included under the caption “Interest expense and amortization of deferred offering costs on preferred shares” on the Statement of Operations and the unamortized balance is deducted from the carrying amount of the MRP Shares under the caption “Floating rate mandatory redeemable preferred shares” on the Statement of Assets and Liabilities.

Holders of the MRP Shares are entitled to receive quarterly cumulative cash dividend payments on the first business day following each quarterly dividend date which is the last day of each of March, June, September and December.

MRP Shares are subject to optional and mandatory redemption in certain circumstances. The redemption price per share is equal to the sum of the liquidation preference per share plus any accumulated but unpaid dividends plus, in some cases, an early redemption premium (which varies based on the date of redemption). The MRP Shares are not listed on any exchange or automated quotation system. The fair value of the MRP Shares is estimated to be their liquidation preference. The MRP Shares are categorized as Level 2 within the fair value hierarchy. The Fund is subject to certain restrictions relating to the MRP Shares such as maintaining certain asset coverage, effective leverage ratio and overcollateralization ratio requirements. Failure to comply with these restrictions could preclude the Fund from declaring any distributions to common shareholders and could trigger the mandatory redemption of the MRP Shares at liquidation value.

In general, the holders of the MRP Shares and of the Common Stock have equal voting rights of one vote per share. The holders of the MRP Shares are entitled to elect two members of the Board of Directors, and separate class votes are required on certain matters that affect the respective interests of the MRP Shares and the Common Stock.

Note 9. Indemnifications:

Under the Fund's organizational documents, its Officers and Directors are indemnified against certain liabilities arising out of the performance of their duties to the Fund. In addition, in the normal course of business, the Fund enters into contracts that provide general indemnifications to other parties. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not occurred. However, the Fund has not had prior claims or losses pursuant to these arrangements and expects the risk of loss to be remote.

Note 10. Subsequent Events:

Management has evaluated the impact of all subsequent events on the Fund through the date the financial statements were issued, and has determined that there were no subsequent events requiring recognition or disclosure in these financial statements.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders of
DNP Select Income Fund Inc.

We have audited the accompanying statement of assets and liabilities of DNP Select Income Fund Inc. (the Fund), including the schedule of investments, as of October 31, 2016, and the related statements of operations and cash flows for the year then ended, the statements of changes in net assets for each of the two years in the period then ended and the financial highlights for each of the periods indicated therein. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Fund's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of October 31, 2016, by correspondence with the custodian and broker. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of DNP Select Income Fund Inc. at October 31, 2016, the results of its operations and its cash flows for the year then ended the changes in its net assets for each of the two years in the period then ended and the financial highlights for each of the periods indicated therein in conformity with U.S. generally accepted accounting principles.

TAX INFORMATION (Unaudited)

For the year ended October 31, 2016, the Fund makes the following disclosures for federal income tax purposes. The percentage, or the maximum amount allowable, of its ordinary income dividends to qualify for the lower tax rates (“QDI”) applicable to individual shareholders, the percentage of ordinary income dividends earned by the Fund which qualifies for the dividends received deduction (“DRD”) for corporate shareholders, and the long-term capital gains dividends (“LTCG”) taxable at a 20% rate, or lower depending on the shareholder’s income (\$ reported in thousands) are listed below. The actual percentage of QDI, DRD and LTCG for the calendar year will be designated in year-end tax statements.

| | | |
|--------------------|-------------------|-------------------------|
| <u>QDI</u> 100% | <u>DRD</u> 91% | <u>LTCG</u> \$99,122 |
|--------------------|-------------------|-------------------------|

INFORMATION ABOUT PROXY VOTING BY THE FUND (Unaudited)

The Fund’s Board of Directors has adopted proxy voting policies and procedures. These proxy voting policies and procedures may be changed at any time by the Fund’s Board of Directors.

A description of the policies and procedures that the Fund uses to determine how to vote proxies relating to portfolio securities is available without charge, upon request, by calling the Administrator toll-free at (888) 878-7845 or is available on the Fund’s website www.dnpselectincome.com or on the SEC’s website www.sec.gov.

Information regarding how the Fund voted proxies relating to portfolio securities during the most recent 12 month period ended June 30 is available without charge, upon request, by calling the Administrator toll-free at (888) 878-7845 or is available on the Fund’s website at www.dnpselectincome.com or on the SEC’s website at www.sec.gov.

INFORMATION ABOUT THE FUND’S PORTFOLIO HOLDINGS (Unaudited)

The Fund files its complete schedule of portfolio holdings with the SEC for the first and third fiscal quarters of each fiscal year (quarters ended January 31 and July 31) on Form N-Q. The Fund’s Form N-Q is available on the SEC’s web site at www.sec.gov and may be reviewed and copied at the SEC’s Public Reference Room in Washington D.C. Information on the operation of the SEC’s Public Reference Room may be obtained by calling (800) 732-0330. In addition, the Fund’s Form N-Q is available without charge, upon request, by calling the Administrator toll-free at (888) 878-7845 or is available on the Fund’s website at www.dnpselectincome.com.

ADDITIONAL INFORMATION (Unaudited)

Since October 31, 2015: (i) there have been no material changes in the Fund’s investment objectives or policies that have not been approved by the shareholders; (ii) there have been no changes in the Fund’s charter or by-laws that would delay or prevent a change in control of the Fund which have not been approved by the shareholders; (iii) there have been no material changes in the principal risk factors associated with an investment in the fund; and (iv) there have been no changes in the persons who are primarily responsible for the day-to-day management of the Fund’s portfolio.

Additional information, if any relating to the Fund’s directors and officers, in addition to such information as is found elsewhere in this Annual Report, may be requested by contacting the Fund at the address provided in this report.

INFORMATION ABOUT DIRECTORS OFFICERS OF THE FUND (Unaudited)

Set forth below are the names and certain biographical information about the directors of the Fund. Directors are divided into three classes and are elected to serve staggered three-year terms. All of the directors are elected by the holders of the Fund’s common stock, except for Mr. Genetski and Mr. Pollard, who are elected by the holders of the Fund’s preferred stock. All of the current directors of the Fund, with the exception of Mr. Partain, are classified as independent directors because none of them are “interested persons” of the Fund, as defined in the 1940 Act. Mr. Partain is an “interested person” of the Fund by reason of his position as President and Chief Executive Officer of the Fund and President, Chief Investment Officer and employee of the Adviser. The term “Fund Complex” refers to the Fund and all the other investment companies advised by affiliates of Virtus.

The address for all directors is c/o Duff & Phelps Investment Management Co., 200 South Wacker Drive, Suite 500, Chicago, Illinois 60606. All of the Fund’s directors currently serve on the Board of Directors of three other registered closed-end investment companies that are advised by Duff & Phelps Investment Management Co.: Duff & Phelps Global Utility Income Fund Inc. (“DPG”), Duff & Phelps Utility and Corporate Bond Trust Inc. (“DUC”) and DTF Tax-Free Income Inc. (“DTF”).

DISTRIBUTION REINVESTMENT AND CASH PURCHASE PLAN (Unaudited)

DNP Select Income Fund Inc. (the “Fund”) maintains a Distribution Reinvestment and Cash Purchase Plan (the “plan”). Under the plan, shareholders may elect to have all distributions paid on their common stock automatically reinvested by Computershare Trust Company, N.A. (the “Agent”) as plan agent for shareholders, in additional shares of common stock of the Fund. Only registered shareholders may participate in the plan. The plan permits a nominee, other than a depository, to participate on behalf of those beneficial owners for whom it is holding shares who elect to participate. However, some nominees may not permit a beneficial owner to participate without transferring the shares into the owner’s name. Shareholders who do not elect to participate in the plan will receive all distributions in cash paid by check mailed directly to the shareholder (or, if the shareholder’s shares are held in street or other nominee name, then to such shareholder’s nominee) by the Agent as dividend disbursing agent. Registered shareholders may also elect to have cash dividends deposited directly into their bank accounts.

When a distribution is reinvested under the plan, the number of shares of common stock equivalent to the cash dividend or distribution is determined as follows:

(i) If the current market price of the shares equals or exceeds their net asset value, the Fund will issue new shares to the plan at the greater of current net asset value or 95% of the then current market price, without any per share fees (or equivalent purchase costs).

(ii) If the current market price of the shares is less than their net asset value, the Agent will receive the distributions in cash and will purchase the reinvestment shares in the open market or in private purchases for the participants’ accounts. Each participant will pay a per share fee, (or equivalent purchase costs) incurred in connection with such purchases. Purchases are made through a broker selected by the Agent that may be an affiliate of the Agent. Shares are allocated to the accounts of the respective participants at the average price per share, plus per share fees paid by the Agent for all shares purchased by it in reinvestment of the distribution(s) paid on a particular day and in concurrent purchases of shares for voluntary additional share investment.

The time of valuation is the close of trading on the New York Stock Exchange on the most recent day preceding the date of payment of the distribution on which that exchange is open for trading. As of that time, the Fund’s administrator compares the net asset value per share as of the time of the close of trading on the New York Stock Exchange, and determines which of the alternative procedures described above are to be followed.

The reinvestment shares are credited to the participant’s plan account in the Fund’s stock records maintained by the Agent, including a fractional share to six decimal places. The Agent sends to each participant a written statement of all transactions in the participant’s share account, including information that the participant will need for income tax records. Shares held in the participant’s plan account have full distribution and voting rights. Distributions paid on shares held in the participant’s plan account will also be reinvested.

The cost of administering the plan is borne by the Fund. There is no brokerage commission on shares issued directly by the Fund. However, participants do pay a per share fee incurred in connection with purchases by the Agent for reinvestment of distributions and voluntary cash payments.

The automatic reinvestment of distributions does not relieve participants of any income taxes that may be payable (or required to be withheld) on distributions.

Plan participants may purchase additional shares of common stock through the plan by delivering to the Agent a check for at least \$100, but not more than \$5,000, in any month. The Agent will use such funds to purchase shares in the open market or in private transactions.

The purchase price of such shares may be more than or less than net asset value per share. The Fund will not issue new shares or supply treasury shares for such voluntary additional share investment. Purchases will be made commencing with the time of the first distribution payment after receipt of the funds for additional purchases, and may be aggregated with purchases of shares for reinvestment of the distribution. Shares will be allocated to the accounts of participants purchasing additional shares at the weighted average price per share, plus a service charge imposed by the Agent and a per share fee paid by the Agent for all shares purchased by it, including for reinvestment of distributions. Funds sent to the Agent for voluntary additional share investment may be recalled by the participant by telephone, internet or written notice received by the Agent not later than two business days before the next distribution payment date. If for any reason a regular monthly distribution is not paid by the Fund, funds for voluntary additional share investment will be returned to the participant, unless the participant specifically directs that they continue to be held by the Agent for subsequent investment. Participants will not receive interest on voluntary additional funds held by the Agent pending investment.

A shareholder may leave the plan at any time by telephone, Internet or written notice to the Agent. If your letter of termination is received by the Agent after the record date for a distribution, it may not be effective until the next distribution. Upon discontinuing your participation, you will have two choices (i) if you so request by telephone, through the Internet or in writing, the Agent will sell your shares and send you a check for the net proceeds after deducting the Agent's sales fees (currently \$5.00) and any per share fee (currently \$0.04) or (ii) if you so request by telephone, through the Internet or in writing, you will receive from the Agent a certificate for the number of whole non-certificated shares in your share account, and a check in payment of the value of a fractional share, less applicable fees. If and when it should be determined that the only balance remaining in your plan account is a fraction of a single share, your participation may be deemed to have terminated, and the Agent will mail you a check for the value of your fractional share less applicable fees, determined as in the case of other terminations.

The Fund may change, suspend or terminate the plan at any time, and will promptly mail a notice of such action to the participants at their last address of record with the Agent.

For more information regarding, and an authorization form for, the plan, please contact the Agent at 1-877-381-2537 or on the Agent's website, www.computershare.com/investor.

Information on the plan is also available on the Fund's website at www.dnpselectincome.com.
