

DTF Tax-Free Income 2028 Term Fund Inc.

Annual Report
October 31, 2022

LETTER TO SHAREHOLDERS

December 15, 2022

Dear Fellow
Shareholder:

THE CURRENT MUNICIPAL MARKET ENVIRONMENT AND YOUR FUND

We begin our discussion of DTF Tax-Free Income 2028 Term Fund Inc. (the “DTF Fund” or the “Fund”) for the twelve months ended October 31, 2022, with a review of the municipal market environment in which the DTF Fund invests.

During the past twelve-months, tax-exempt interest rates moved sharply higher across the entire maturity curve as tax-exempt bonds fell victim to surging U.S. Treasury (“UST”) bond yields. Higher inflation readings, the tense Russia/Ukraine conflict, and the Federal Open Market Committee (“FOMC”) (the committee within the Federal Reserve that sets domestic monetary policy) raising its target Federal Funds rate seven times in 2022 to 4.50% (as of this writing), all contributed to some of the worst performance for tax-exempt bonds in over 40 years. Interest rates are at decades highs as yields across the curve are more than 200 basis points higher at the end of October 2022 versus October 2021. The Bloomberg Municipal Bond Index (a broad measure of the municipal market) returned -12% for the period. Bonds with maturities longer than 22 years and bonds rated BBB produced the largest losses over the last twelve months, more than 20% and 15% respectively.

Investors were largely uncomfortable with the rapid increase in rates that began in earnest in 2022, eventually withdrawing more than \$112 billion from municipal bond mutual funds over the previous 52 weeks. This change in retail investor demand has resulted in intense selling pressure, causing the municipal market to soften and yields to rise, further begetting a self-fulfilling cycle. In only five of the last twelve months did the market post a positive monthly return. Typically, when tax-exempt bonds underperform UST bonds, non-traditional and opportunistic investors often begin to buy the asset class due to its relative value. Additionally, banks and insurance companies look opportunistically at municipal bonds as an alternative to other fixed income sectors due to their more attractive taxable-equivalent yields. Unfortunately those sources of demand did not materialize this year.

While demand dropped, overall municipal issuance has fallen short of what the market experienced in 2021. This decline in issuance is largely a result of a sharp decline in taxable municipal issuance as market volatility hampered issuers’ ability to manage the timing of refinancing their outstanding bonds. The supply of tax-exempt bonds has also been depressed as higher interest rates have pushed issuance to the sidelines. Lighter issuance mitigated some of the downward pressure caused by constant selling.

Credit fundamentals in the municipal market remain mostly sound. State and local governments started fiscal 2022 with record levels of reserves, giving the credits significant flexibility and ability to weather periods of volatility. This was largely attributable to the large infusions of federal relief aid, robust property tax assessed valuations, and better-than-expected sales and income tax collections. However, these same ballasts of credit stability could turn into headwinds in 2023 should an economic slowdown or inflation take hold.

Inflation has moved sharply higher in recent months, with year-over-year growth in the Consumer Price Index (CPI) hitting multi-decade highs. Rising inflation, initially driven by pandemic-related imbalances that impacted the supply of labor, materials, and distribution networks, has been exacerbated by the conflict in Eastern Europe and is unlikely to subside quickly or easily. Given historical trends, we expect ongoing elevated inflation to drive even higher tax collections as the costs of goods and services increase.

While there are increasing indications that an economic downturn lies ahead, municipal credit has typically fared better in a recession than other investment options, as there is a lag between the onset of a recession and when municipalities begin to see

their financial positions significantly challenged. That is especially relevant for local municipalities that rely on property tax revenues, as the sizeable increases in housing values across the country are expected to continue to provide a strong source of revenue.

Credit risk premiums (which refer to the additional yield that investors expect to receive as compensation for buying lower-rated securities) widened slightly during the twelve-months ended October 31, 2022 for investment grade rated bonds (particularly for BBB-rated bonds), while below investment grade rated bond risk spreads tightened slightly during the same period. Our investment strategy continues to focus on higher quality municipalities that exhibit value for the longer term. While the federal stimulus may have helped bolster the overall economy and municipal fundamentals, we believe that all credits are not created equal and need to be analyzed with a longer-term horizon. Municipalities still face serious challenges in funding large capital expenditures to rebuild America's aging infrastructure, improve pension plan funding, and protect communities against climate change.

LOOKING AHEAD

Municipal bonds are expected to be attractive in 2023, fueled by strong investor demand and constrained supply. Absolute rates are at decade highs and credit fundamentals remain stable, bolstered by historic levels of revenue collections, rising property valuations, and budget surpluses. We believe that municipal supply is likely to remain modest until interest rates stabilize, creating a favorable imbalance in the supply-demand dynamic. Further, municipalities continue to benefit from a lack of correlation to other asset classes, while defaults continue to be rare and well telegraphed.

We expect municipal supply for 2023 to be relatively flat versus calendar year 2022, with projections for new issuance ranging from \$380 billion to \$420 billion for the year. Given the current high interest rate environment, many issuers may choose to fund capital needs from balance sheet cash rather than accessing the new issue market. Similarly, high rates will dampen refunding issuance and render some projects economically unfeasible.

While valuations, spreads and credit fundamentals are providing strong underpinnings for the municipal market, the uncertainty of rates continues to be a cloud over the municipal investor. Given this, we can expect mixed inflows and outflows for 2023. We continue to favor a longer-term investment strategy of higher quality issues (single "A" or higher). We believe that a higher quality investment strategy, distributed across multiple sectors including those with identifiable and recession-proof revenue streams should provide good relative performance over the longer term.

THE FUND

In managing the DTF Fund, we continue to emphasize our longstanding investment strategy of investing mostly in higher-quality, investment grade bonds with coupons of 5% or higher. The municipal bond market currently remains confident about the near-term credit outlook due to the vast amount of financial support from the federal government and improving economic conditions. As a result, the risk premium has narrowed. As such, we remain committed to our higher-quality, foundation-like approach to the portfolio that we have repeatedly articulated. Generally, the portfolio is well distributed along the maturity and credit risk curve, with higher levels of "A" rated bonds relative to the index.

As of October 31, 2022, the Fund held almost 90% of its total assets in municipal bonds rated "A" or higher and over 75% in bonds with a 5% or greater coupon across multiple sectors and states. The Fund is diversified across 12 industry sectors of the municipal bond market, with revenue sectors like pre-refunded, education, healthcare, special tax, and leasing bonds constituting the Fund's top five sector exposures. Revenue bonds have consistently outweighed general obligation bonds in the Fund's portfolio (approximately 85% revenue vs. 15% general obligation), as we prefer the generally dedicated revenue streams and more settled legal protections these types of bonds have historically offered. Geographically, the Fund is well diversified with exposure to 33 states and the District of Columbia. The Fund continues to invest across the entire maturity spectrum of the municipal bond market to manage the risk of changes in interest rates and/or the shape of the yield curve.

FUND DIVIDEND

As of October 31, 2022, the DTF Fund was paying a \$0.39 per share annualized dividend and had a closing price of \$10.79 per share. The Fund's monthly distribution was maintained at 3.25¢ per share for the previous twelve months.

If the cost of leverage were to rise without a similar or greater rise in the available re-investment rate for bonds called and/or maturing, the Fund's earnings would likely be reduced. If the Fund's net earnings were to fall short of its dividend payout, the Fund's balance of undistributed net income would decline further, possibly necessitating future dividend changes.

Maturity and duration are measures of the sensitivity of a fund's portfolio of investments to changes in interest rates. More specifically, duration refers to the percentage change in a bond's price for a given change in rates (typically +/- 100 basis points). In general, the greater the duration of a portfolio, the greater is the potential percentage price volatility for a given change in interest rates. As of October 31, 2022, the modified adjusted duration of the Fund's portfolio of investments was 4.43 years, versus the duration of the investments constituting the Bloomberg U.S. Municipal Index, which was 6.86 years.

In addition to the risk of disruptions in the broader credit market, the level of interest rates can be a primary driver of bond fund total returns, including the Fund's returns. As a practical matter, it is not possible for the Fund to be completely insulated from turmoil in the global financial markets, pandemics, or unexpected moves in interest rates. Any sudden or unexpected rise in interest rates would likely reduce the total return of bond funds, since higher interest rates could be expected to depress the valuations of fixed-rate bonds held in a portfolio. Further, if the municipal yield curve flattens (when the difference between short-term interest rates and long-term rates narrows) or inverts (when short-term rates exceed long-term rates), the Fund's total return may be pressured lower. Management believes that over the long term, the diversification of the portfolio across multiple states and sectors, in addition to the distribution of assets along the yield curve, positions the Fund to take advantage of future opportunities while limiting credit risk and volatility to some degree. However, a sustained and meaningful rise in interest rates from current levels would have the potential to significantly reduce the total return of leveraged bond funds, including the Fund, and would likely put downward pressure on both the net asset value and market prices of such funds.

FUND PERFORMANCE

The following table compares the DTF Fund's total return and the Bloomberg U.S. Municipal Index. It is important to note that the index returns stated below include no fees or expenses, whereas the DTF Fund's NAV returns are net of fees and expenses. The Fund's use of leverage can magnify the effect of any gains or losses to a greater extent than if leverage were not used.

Total Return¹			
For the period indicated through October 31, 2022			
	One Year	Five Years (annualized)	Ten Years (annualized)
DTF Tax-Free Income 2028 Term Fund Inc.			
Market Value ²	-21.0%	-1.5%	-0.5%
Net Asset Value ³	-21.1%	-1.9%	0.5%
Bloomberg U.S. Municipal Index ⁴	-12.0%	0.4%	1.7%

Growth of \$10,000

This graph shows the change in value of a hypothetical investment of \$10,000 in the Fund for the years indicated. For comparison, the same investment is shown in the indicated index.

¹ Past performance is not indicative of future results. Current performance may be lower or higher than the performance in historical periods.

- ² Total return on market value assumes a purchase of common stock at the opening market price on the first business day and a sale at the closing market price on the last business day of each period shown in the table and assumes reinvestment of dividends at the actual reinvestment prices obtained under the terms of the DTF Fund’s dividend reinvestment plan. In addition, when buying or selling stock, you would ordinarily pay brokerage expenses. Because brokerage expenses are not reflected in the above calculations, your total return net of brokerage expenses would be lower than the total returns on market value shown in the table. Source: Administrator of the DTF Fund.
- ³ Total return on NAV uses the same methodology as is described in note 2, but with use of NAV for beginning, ending and reinvestment values. Because the DTF Fund’s expenses (ratios detailed on page 16 of this report) reduce the DTF Fund’s NAV, they are already reflected in the DTF Fund’s total return on NAV shown in the table. NAV represents the underlying value of the DTF Fund’s net assets, but the market price per share may be higher or lower than the NAV. Source: Administrator of the DTF Fund.
- ⁴ The Bloomberg U.S. Municipal Index (formerly known as the Bloomberg Barclays Municipal Bond Index) is a market capitalization-weighted index that is designed to measure the long-term tax-exempt bond market. The index is calculated on a total return basis with dividends reinvested. The index is unmanaged, its returns do not reflect any fees, expenses, or sales charges, and it is not available for direct investment. Source: Bloomberg.

BOARD OF DIRECTORS MEETINGS

At the regular September 2022 meeting of the DTF Fund’s Board of Directors, the Board declared the following monthly dividends:

<u>Cents Per Share</u>	<u>Record Date</u>	<u>Payable Date</u>
3.25	October 17	October 31
3.25	November 15	November 30
3.25	December 15	December 30

At the regular December 2022 meeting of the DTF Fund’s Board of Directors, the Board declared the following monthly dividends:

<u>Cents Per Share</u>	<u>Record Date</u>	<u>Payable Date</u>
3.25	January 17	January 31
3.25	February 15	February 28
3.25	March 15	March 31

ABOUT YOUR FUND

The Fund’s investment objective is current income exempt from regular federal income tax consistent with the preservation of capital. The fund seeks to achieve its investment objective by investing primarily (at least 80% of its total assets) in a diversified portfolio of investment-grade tax-exempt obligations. The Fund may not invest more than 25% of its total assets (taken at market value at the time of each investment) in the securities of issuers in a single industry; provided that, for purposes of this restriction, tax exempt securities of issuers that are states, municipalities or their political subdivisions are not considered to be the securities of issuers in any single industry.

The use of leverage enables the Fund to borrow at short-term rates and invest at longer-term rates. As of October 31, 2022, the Fund’s leverage represented approximately 44% of the Fund’s total assets. On November 16, 2022, the Fund voluntarily redeemed 250 of its 650 outstanding RVMTP Shares, at a redemption price equal to the aggregate liquidation preference of \$25,000,000 plus accumulated but unpaid dividends. This reduced the leverage to approximately 32%.

The amount and type of leverage used is reviewed by the Board of Directors based on the Fund’s expected earnings relative to the anticipated costs (including fees and expenses) associated with the leverage. In addition, the long-term expected benefits of leverage are weighed against the potential effect of increasing the volatility of both the Fund’s net asset value and the market value of its common stock. Historically, the tendency of the U.S. yield curve to exhibit a positive slope (i.e., long-term rates higher than short-term rates) has fostered an environment in which leverage can make a positive contribution to the earnings of the Fund. There is no assurance that this will continue to be the case in the future. A decline in the difference between short-term and long-term rates could have an adverse effect on the income provided from leverage. Prolonged periods of low longer-term interest rates can result in lower yielding reinvestment opportunities for the Fund’s portfolio and could also

adversely affect the income provided from leverage. If the DTF Fund were to conclude that the use of leverage was likely to cease being beneficial, it could modify the amount and type of leverage it uses or eliminate the use of leverage entirely.

We continue to appreciate your interest in the DTF Fund and look forward to being of continued service in the future.

Ronald H. Schwartz, CFA
Vice President

SCHEDULE OF INVESTMENTS—(Continued)
October 31, 2022

(a) The following abbreviations are used in the portfolio descriptions:

- AGM—Assured Guaranty Municipal Corp.*
- AMBAC—Ambac Assurance Corporation*
- BAM—Build America Mutual Assurance Company*
- CAB—Capital Appreciation Bond
- COP—Certificate of Participation
- FHA—Federal Housing Authority*
- NRE—National Public Finance Guarantee Corporation*
- PSF—Texas Permanent School Fund*

* Indicates an obligation of credit support, in whole or in part.

(b) Prerefunded issues are secured by escrowed cash, U.S. government obligations, or other securities.

The percentage shown for each investment category is the total value of that category as a percentage of the net assets applicable to common stock of the Fund.

The Fund's investments are carried at fair value which is defined as the price that the Fund might reasonably expect to receive upon selling an investment in a timely transaction to an independent buyer in the principal or most advantageous market of the investment. The three-tier hierarchy of inputs established to classify fair value measurements for disclosure purposes is summarized in the three broad levels listed below.

- Level 1—quoted prices in active markets for identical securities
- Level 2—other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risks, etc.)
- Level 3—significant unobservable inputs (including the Fund's own assumptions in determining fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in these securities. The following is a summary of the inputs used to value each of the Fund's investments at October 31, 2022:

	Level 2
Municipal bonds	\$122,544,786

There were no Level 1 or Level 3 priced securities held and there were no transfers into or out of Level 3.

Summary of Ratings
as a Percentage of Long-Term Investments
(Unaudited)

Rating**	%
AAA	6.6
AA	47.0
A	37.1
BBB	6.6
BB	0.0
B	0.0
NR	2.7
	100.0

** Individual ratings are grouped based on the lower rating of Standard & Poor's Financial Services LLC ("S&P") or Moody's Investors Service, Inc. ("Moody's") and are expressed using the S&P ratings scale. If a particular security is rated by either S&P or Moody's, but not both, then the single rating is used. If a particular security is not rated by either S&P or Moody's, then a rating from Fitch Ratings, Inc. is used, if available. The Fund does not evaluate these ratings but simply assigns them to the appropriate credit quality category as determined by the ratings agencies, as applicable. Securities that have not been rated by S&P, Moody's or Fitch totaled 2.7% of the portfolio at the end of the reporting period.

Net increase (decrease) from investment operations applicable to common stock	(3.24)	0.42	0.52	1.68	(0.45)
Distributions on common stock:					
Net investment income	(0.39)	(0.49)	(0.48)	(0.43)	(0.59)
Net realized gains	(0.16)	— ⁽¹⁾	— ⁽¹⁾	(0.12)	(0.03)
Total distributions	(0.55)	(0.49)	(0.48)	(0.55)	(0.62)
Net asset value, end of year	\$ 11.93	\$ 15.72	\$ 15.79	\$15.75	\$14.62
Per share market value, end of year	\$ 10.79	\$ 14.26	\$ 14.21	\$14.18	\$12.34
RATIOS TO AVERAGE NET ASSETS APPLICABLE TO COMMON STOCK:					
Operating expenses	3.13%	2.37%	2.27%	2.87%	2.58%
Operating expenses, without leverage	1.32%	1.46%	1.17%	1.14%	1.16%
Net investment income	2.39%	2.57%	2.83%	2.58%	3.10%
SUPPLEMENTAL DATA:					
Total return on market value ⁽²⁾	(21.04)%	3.62%	3.62%	19.70%	(8.72)%
Total return on net asset value ⁽²⁾	(21.10)%	2.54%	3.39%	11.67%	(2.94)%
Portfolio turnover rate	7%	10%	13%	10%	23%
Net assets applicable to common stock, end of year (000's omitted)	\$83,859	\$110,483	\$134,501	\$134,205	\$124,550
Preferred stock outstanding, end of year (000's omitted) ⁽³⁾	\$65,000	\$65,000	\$65,000	\$65,000	\$65,000
Asset coverage on preferred stock ⁽⁴⁾	\$229,013	\$269,973	\$306,925	\$306,469	\$291,615
Asset coverage ratio on preferred stock ⁽⁵⁾	229%	270%	307%	306%	292%

⁽¹⁾ Amount per share is less than \$0.01.

⁽²⁾ Total return on market value assumes a purchase of common stock at the opening market price on the first business day and a sale at the closing market price on the last business day of each year shown in the table and assumes reinvestment of dividends at the actual reinvestment prices obtained under the terms of the Fund's dividend reinvestment plan. Total return on net asset value uses the same methodology, but with use of net asset value for beginning, ending and reinvestment values.

⁽³⁾ The Fund's preferred stock is not publicly traded.

⁽⁴⁾ Represents value of net assets applicable to common stock plus preferred stock outstanding at year end divided by the preferred stock outstanding at year end, calculated per \$100,000 liquidation preference per share of preferred stock.

⁽⁵⁾ Represents value of net assets applicable to common stock plus preferred stock outstanding at year end divided by the preferred stock outstanding at year end.

The accompanying notes are an integral part of these financial statements.

DTF TAX-FREE INCOME 2028 TERM FUND INC.

NOTES TO FINANCIAL STATEMENTS

October 31, 2022

Note 1. Organization

DTF Tax-Free Income 2028 Term Fund Inc. (formerly known as DTF Tax-Free Income Inc.) (the “Fund”) was incorporated under the laws of the State of Maryland on September 24, 1991. The Fund commenced operations on November 29, 1991 as a diversified, closed-end management investment company registered under the Investment Company Act of 1940, as amended (the “1940 Act”). The Fund’s investment objective is current income exempt from regular federal income tax consistent with preservation of capital.

The Fund will terminate on or before March 1, 2028 unless (i) within 12 months prior to that date, the Fund conducts a tender offer for all of its outstanding shares at 100% of their net asset value, (ii) the results of the tender offer leave the Fund with net assets of at least \$75 million and (iii) a majority of the entire Board of Directors votes to reinstate the Fund’s perpetual existence.

Note 2. Significant Accounting Policies

The Fund is an investment company that follows the accounting and reporting guidance of Accounting Standards Codification (“ASC”) Topic 946 applicable to Investment Companies.

The following are the significant accounting policies of the Fund.

A. Investment Valuation: Debt securities are generally valued based on the evaluated bid using prices provided by one or more dealers regularly making a market in that security, an independent pricing service, or quotes from broker-dealers, when such prices are believed to reflect the fair value of such securities and are generally classified as Level 2. The relative liquidity of some securities in the Fund’s portfolio may adversely affect the ability of the Fund to accurately value such securities. Any securities for which it is determined that market prices are unavailable or inappropriate are fair valued using the Adviser’s policies adopted by the Board of Directors and are classified as Level 2 or 3 based on the valuation inputs.

B. Investment Transactions and Investment Income: Securities transactions are recorded on the trade date. Realized gains and losses on sales of securities are determined on the identified cost basis. Interest income is recorded on the accrual basis. The Fund amortizes premiums and accretes discounts on securities using the effective interest method. Premiums on securities are amortized over the period remaining until first call date, if any, or if none, the remaining life of the security and discounts are accreted over the remaining life of the security for financial reporting purposes.

C. Federal Income Taxes: It is the Fund’s intention to comply with requirements of Subchapter M of the Internal Revenue Code of 1986, as amended (the “Code”) applicable to regulated investment companies and to distribute substantially all of its taxable income and capital gains to its shareholders. Therefore, no provision for federal income or excise taxes is required. Management of the Fund has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. The Fund’s U.S. federal income tax returns are generally subject to examination by the Internal Revenue Service for a period of three years after they are filed. State and local tax returns and/or other filings may be subject to examination for different periods, depending upon the rules of each applicable jurisdiction.

D. Dividends and Distributions: The Fund declares and pays dividends on its common stock monthly from net investment income. Net capital gains, if any, in excess of capital loss carryforwards are expected to be distributed annually. Dividends and distributions are recorded on the ex-dividend date. Dividends on the Fund’s Remarketable Variable Rate MuniFund Term Preferred Shares (“RVMTP Shares”) are accrued on a daily basis and paid on a monthly basis and are determined as described in Note 7.

The amount and timing of distributions are generally determined in accordance with federal tax regulations, which may differ from U.S. generally accepted accounting principles.

DTF TAX-FREE INCOME 2028 TERM FUND INC.
NOTES TO FINANCIAL STATEMENTS—(Continued)
October 31, 2022

E. Use of Estimates: The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Note 3. Agreements and Management Arrangements

A. Adviser: The Fund has an Advisory Agreement with Duff & Phelps Investment Management Co. (the “Adviser”), an indirect, wholly owned subsidiary of Virtus Investment Partners, Inc. (“Virtus”). The investment advisory fee is payable monthly at an annual rate of 0.50% of the Fund’s average weekly managed assets, which is defined as the average weekly value of the total assets of the Fund minus the sum of all accrued liabilities of the Fund (other than the aggregate amount of any outstanding borrowings or other indebtedness constituting financial leverage).

B. Administrator: The Fund has an Administration Agreement with Robert W. Baird & Co. Incorporated (the “Administrator” or “Baird”). The administration fee is payable quarterly at an annual rate of 0.14% of the Fund’s average weekly net assets, which is defined as the average weekly value of the total assets of the Fund minus the sum of all accrued liabilities of the Fund (including the aggregate amount of any outstanding borrowings or other indebtedness constituting financial leverage).

C. Directors: The Fund pays each director not affiliated with the Adviser an annual fee. Total fees paid to directors for the year ended October 31, 2022 were \$15,938.

D. Affiliated Shareholder: At October 31, 2022, Virtus Partners, Inc. (a wholly owned subsidiary of Virtus) held 34,265 shares of the Fund which represent 0.49% of shares of common stock outstanding. These shares may be sold at any time.

Note 4. Investment Transactions

Purchases and sales of investment securities (excluding short-term investments) for the year ended October 31, 2022 were \$11,354,765, and \$33,780,417, respectively.

Note 5. Distributions and Tax Information

At October 31, 2022, the approximate federal tax cost and aggregate gross unrealized appreciation (depreciation) were as follows:

<u>Federal Tax Cost</u>	<u>Unrealized Appreciation</u>	<u>Unrealized Depreciation</u>	<u>Net Unrealized Depreciation</u>
\$129,962,890	\$295,857	\$(7,713,961)	\$(7,418,104)

The tax character of distributions paid to common shareholders during the years ended October 31, 2022 and 2021 was as follows:

	<u>10/31/2022</u>	<u>10/31/2021</u>
<i>Distributions paid from:</i>		
Tax-exempt income	\$2,741,530	\$3,440,760
Short-term capital gains	394	—
Long-term capital gains	<u>1,156,230</u>	<u>1,363</u>
Total distributions	<u>\$3,898,154</u>	<u>\$3,442,123</u>

DTF TAX-FREE INCOME 2028 TERM FUND INC.
NOTES TO FINANCIAL STATEMENTS—(Continued)
October 31, 2022

At October 31, 2022, the components of accumulated losses on a tax basis were as follows:

Undistributed net tax-exempt income	\$412,366
Realized net short-term capital loss	(159,845)
Realized net long-term capital loss	(5,345,666)
Net unrealized depreciation	(7,418,104)
	\$(12,511,249)

At October 31, 2022, the Fund had unused capital loss carryforwards available to offset future capital gains, if any, to the extent permitted by the Internal Revenue Code. The character and amounts of the carryforwards are given in the table below. These capital losses are not subject to expiration.

Short Term	Long Term	Total
\$159,845	\$5,345,666	\$5,505,511

Note 6. Reclassification of Capital Accounts

Certain capital accounts in the financial statements are periodically adjusted for permanent differences in order to reflect their tax character. Permanent reclassifications can arise from differing treatment of certain income and gain transactions. These adjustments have no impact on net assets or net asset value per share of the Fund. Temporary differences that arise from recognizing certain items of income, expense, gain or loss in different periods for financial statement and tax purposes will likely reverse at some time in the future.

The reclassifications at October 31, 2022 primarily relate to the Remarketable Variable Rate MuniFund Term Preferred Shares offering.

Note 7. Remarketable Variable Rate MuniFund Term Preferred Shares

At October 31, 2022, the Fund had issued and outstanding 650 shares of Series 2050 Remarketable Variable Rate MuniFund Term Preferred Shares (“RVMTTP Shares”), each with a liquidation preference of \$100,000.

The RVMTTP Shares were privately placed with an institutional investor on November 2, 2020. The proceeds were used to conduct an early redemption of the Fund’s Series 2021 Variable Rate MuniFund Term Preferred Shares (“VMTP Shares”) at 100% of their liquidation preference plus accrued and unpaid dividends on November 12, 2020. The RVMTTP Shares are a floating-rate form of preferred shares and are subject to a mandatory tender on May 2, 2024, but may remain outstanding either on the same terms or modified terms pursuant to an agreement between the Fund and the holder(s), or under a remarketing process at such time. The Fund is required to redeem all outstanding RVMTTP Shares on November 2, 2050, unless earlier redeemed, repurchased or extended. The RVMTTP Shares are subject to optional and mandatory redemption in certain circumstances. The redemption price per share is equal to the sum of the liquidation value per share plus any accumulated but unpaid dividends and a redemption premium, if any.

Key terms of the series of RVMTTP Shares at October 31, 2022 are as follows:

Series	Shares Outstanding	Liquidation Preference	Weekly Rate Reset	Rate	Mandatory Redemption Date
2050	650	\$65,000,000	SIFMA Municipal Swap Index + 1.25%	3.49%	11/02/2050

DTF TAX-FREE INCOME 2028 TERM FUND INC.
NOTES TO FINANCIAL STATEMENTS—(Continued)
October 31, 2022

The Fund incurred costs in connection with the issuance of the RVMTTP Shares. These costs were recorded as a deferred charge and are being amortized over a three-year term. Amortization of these deferred offering costs of \$137,072 is included under the caption “Interest expense and amortization of deferred offering costs on preferred shares” on the Statement of Operations and the unamortized balance is deducted from the carrying amount of the RVMTTP shares under the caption “Remarketable Variable Rate MuniFund Term Preferred Shares” on the Statement of Assets and Liabilities.

Dividends on the RVMTTP Shares (which are treated as interest expense for financial reporting purposes) are accrued daily and paid monthly. Interest expense may also include distributions of taxable income, if any, allocated to the RVMTTP Shares. The average daily liquidation value outstanding and the weighted daily average dividend rate of the RVMTTP Shares during the year ended October 31, 2022, were \$65,000,000 and 2.02%, respectively.

The RVMTTP Shares are not listed on any exchange or automated quotation system. The fair value of the RVMTTP Shares is estimated to be their liquidation preference. The RVMTTP Shares are categorized as Level 2 within the fair value hierarchy. The Fund is subject to certain restrictions relating to the RVMTTP Shares, such as maintaining certain asset coverage, effective leverage ratio and overcollateralization ratio requirements. Failure to comply with these restrictions could preclude the Fund from declaring any distributions to common shareholders or purchasing common shares and/or could trigger the mandatory redemption of the RVMTTP Shares.

Note 8. Tender Offer

On December 8, 2020, the Fund announced the commencement of a cash tender offer (the “Offer”) for up to 17.5% of the Fund’s outstanding shares of common stock at a price of 98% of the Fund’s closing net asset value per share (NAV) as of the close of the regular trading session on the New York Stock Exchange (NYSE) on January 8, 2021. The Offer expired on January 7, 2021, at which time 4,335,961 shares were duly tendered and not withdrawn. Because the shares tendered exceeded 1,491,119 shares, the Offer was oversubscribed. Therefore, in accordance with the terms and conditions specified in the Offer, the Fund purchased shares from all tendering stockholders on a pro rata basis, disregarding fractions. The proration factor for the Offer was 34.389423%. The purchase price per share of properly tendered shares was \$15.77 per share, equal to 98% of the NAV as of the close of the regular trading session of the NYSE on January 8, 2021. Payment for the tendered shares was made on January 11, 2021 in the amount of \$23,514,947. Shares that were not tendered continue to remain outstanding.

Note 9. Indemnifications

Under the Fund’s organizational documents, its officers and directors are indemnified against certain liabilities arising out of the performance of their duties to the Fund. In addition, in the normal course of business, the Fund enters into contracts that provide general indemnifications to other parties. The Fund’s maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not occurred. However, the Fund has not had prior claims or losses pursuant to these arrangements and expects the risk of loss to be remote.

Note 10. Subsequent Events

On November 16, 2022, the Fund voluntarily redeemed 250 of its outstanding RVMTTP Shares, at a redemption price equal to the aggregate liquidation preference of \$25,000,000 plus accumulated but unpaid dividends.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders of DTF Tax-Free Income 2028 Term Fund Inc.
(formerly, DTF Tax-Free Income Inc.)

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities of DTF Tax-Free Income 2028 Term Fund Inc. (the “Fund”), including the schedule of investments, as of October 31, 2022, and the related statements of operations and cash flows for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the five years in the period then ended and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund at October 31, 2022, the results of its operations and its cash flows for the year then ended, the changes in its net assets for each of the two years in the period then ended and its financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements are the responsibility of the Fund’s management. Our responsibility is to express an opinion on the Fund’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Fund is not required to have, nor were we engaged to perform, an audit of the Fund’s internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Fund’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of October 31, 2022, by correspondence with the custodian. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Ernst & Young LLP

We have served as the auditor of one or more Duff & Phelps Investment Management Co. investment companies since 1991.

Chicago, Illinois
December 15, 2022

TAX INFORMATION (Unaudited)

The following information is being provided in order to meet reporting requirements set forth by the Code and/or meet state specific requirements. In early 2023, the Fund will make available the tax status of all distributions paid for the calendar year 2022. Shareholders should consult their tax advisors. With respect to distributions paid during the fiscal year ended October 31, 2022, the Fund designates the following amounts (or, if subsequently determined to be different, the maximum amount allowable):

	<u>Preferred</u>	<u>Common</u>
Short-term capital gains	\$99	\$394
Long-term capital gains	<u>292,908</u>	<u>1,156,230</u>
Total taxable distributions	<u>\$293,007</u>	<u>\$1,156,624</u>

All of the other net investment income distributions paid by the Fund qualify and are designated as tax-exempt interest dividends for Federal income tax purposes.

INFORMATION ABOUT PROXY VOTING BY THE FUND (Unaudited)

Although the Fund does not typically hold voting securities, a description of the policies and procedures that the Fund uses to determine how to vote proxies relating to portfolio securities is available without charge, upon request, by calling the Administrator toll-free at (833) 604-3163 or is available on the Fund's website www.dpimc.com/df or on the SEC's website www.sec.gov.

INFORMATION ABOUT THE FUND'S PORTFOLIO HOLDINGS (Unaudited)

The Fund files its complete schedule of portfolio holdings with the SEC for the first and third fiscal quarters of each fiscal year (quarters ended January 31 and July 31) as an exhibit to Form NPORT-P. The Fund's Form NPORT-P is available on the SEC's website at www.sec.gov. In addition, the Fund's schedule of portfolio holdings is available without charge, upon request, by calling the Administrator toll-free at (833) 604-3163 or is available on the Fund's website at www.dpimc.com/df.

ADDITIONAL INFORMATION (Unaudited)

Since October 31, 2021: (i) there have been no material changes in the Fund's investment objectives or policies that have not been approved by the shareholders; (ii) there have been no changes in the Fund's charter or by-laws that would delay or prevent a change in control of the Fund which have not been approved by the shareholders; (iii) there have been no material changes in the principal risk factors associated with an investment in the Fund; and (iv) there have been changes in the persons who are primarily responsible for the day-to-day management of the Fund's portfolio. Timothy M. Heaney retired as Chief Investment Officer of the Fund on May 31, 2022 and Lisa H. Leonard retired as a portfolio manager of the Fund on June 30, 2022. They were succeeded by Ronald H. Schwartz, CFA and Dusty L. Self, each appointed a portfolio manager and Vice President of the Fund, effective July 1, 2022.

Additional information, if any, relating to the Fund's directors and officers, in addition to such information as is found elsewhere in the Annual Report, may be requested by contacting the Fund at the address provided in this report.

Notice is hereby given in accordance with Section 23(c) of the 1940 Act that the Fund may from time to time purchase its shares of common stock in the open market.

INVESTMENT OBJECTIVES, PRINCIPAL STRATEGIES AND PRINCIPAL RISKS (Unaudited)

Investment Objective: The Fund's investment objective is current income exempt from regular federal income tax consistent with the preservation of capital.

Principal Strategies: The Fund seeks to achieve its investment objective by investing primarily (at least 80% of its total assets) in a diversified portfolio of investment grade tax-exempt obligations.

Under normal market conditions, the Fund will not invest more than 25% of its total assets (taken at market value at the time of each investment) in securities of issuers in a single industry; provided that, for purposes of this restriction, tax-exempt securities of issuers that are states, municipalities or their political subdivisions are not considered to be the securities of issuers in any single industry. The Fund will also not invest more than 20% of its assets in obligations that pay interest that is subject to the alternative minimum tax.

All of the Fund's investments at the time of purchase will be rated at least investment grade or, with respect to no more than 20% of total assets, unrated but of comparable credit quality of obligations rated investment grade.

The Fund does not currently utilize derivatives or invest in derivatives.

Principal Risks:

Credit & Interest Risk: Debt securities are subject to various risks, the most prominent of which are credit and interest rate risk. The issuer of a debt security may fail to make interest and/or principal payments. Values of debt securities may rise or fall in response to changes in interest rates, and this risk may be enhanced with longer-term maturities.

Municipal Securities Risk: Events negatively impacting a municipality, municipal security, or the municipal bond market in general, may cause the fund to decrease in value, perhaps significantly.

Industry/Sector Concentration Risk: The value of the investments of a fund that focuses its investments in a particular industry or market sector will be highly sensitive to financial, economic, political and other developments affecting that industry or market sector, and conditions that negatively impact that industry or market sector will have a greater impact on the Fund as compared with a fund that does not have its holdings concentrated in a particular industry or market sector. Events negatively affecting the industries or market sectors in which the Fund has invested are therefore likely to cause the value of the Fund's shares to decrease, perhaps significantly.

Market Volatility Risk: The value of the securities in which the Fund invests may go up or down in response to the prospects of individual issuers and/or general economic conditions. Such price changes may be temporary or may last for extended periods.

Instability in the financial markets may expose the Fund to greater market and liquidity risk and potential difficulty in valuing portfolio instruments that it holds. In response to financial markets that experienced extreme volatility, and in some cases a lack of liquidity, the U.S. Government and other governments have taken a number of unprecedented actions, including acquiring distressed assets from financial institutions and acquiring ownership interests in those institutions. The implications of government ownership and disposition of these assets are unclear. Additional legislation or government regulation may also change the way in which funds themselves are regulated, which could limit or preclude the Fund's ability to achieve its investment objective. Local, regional or global events such as war, acts of terrorism, the spread of infectious illness or other public health issue, recessions, or other events could have a significant impact on the Fund and its investments, hampering the ability of the Fund's portfolio managers to invest the Fund's assets as intended.

Income Risk: Income received from the Fund may vary widely over the short- and long-term and/or be less than anticipated if the proceeds from maturing securities in the Fund are reinvested in lower-yielding securities.

Prepayment/Call Risk: Issuers may prepay or call their fixed rate obligations when interest rates fall, forcing the Fund to reinvest in obligations with lower interest rates and the Fund may not benefit fully from the increase in value that other fixed income investments experience when interest rates decline.

Tax-Exempt Securities Risk: Tax-exempt securities may not provide a higher after-tax return than taxable securities, and/or the tax-exempt status may be lost or limited.

Tax Liability Risk: Noncompliant conduct by a municipal bond issuer, or certain adverse interpretations or actions by a government or tax authority, could cause interest from a security to become taxable, possibly retroactively, subjecting shareholders to increased tax liability.

State and AMT Tax Risk: A portion of income may be subject to some state and/or local taxes and, for certain investors, a portion may be subject to the federal alternative minimum tax.

Unrated Fixed Income Securities Risk: If the Adviser is unable to accurately assess the quality of an unrated fixed income security, the Fund may invest in a security with greater risk than intended, or the securities may be more difficult to sell than anticipated.

No Guarantee: There is no guarantee that the portfolio will meet its objective.

Leverage Risk: The Fund employs leverage through preferred stock. While this leverage often serves to increase yield, it also subjects the Fund to increased risks. These risks may include the likelihood of increased price and NAV volatility and the possibility that the Fund's common stock income will fall if the dividend rate on the preferred shares rises. The use of leverage is premised upon the expectation that the cost of leverage will be lower than the return on the investments made with the proceeds. However, if the income or capital appreciation from the securities purchased from such proceeds is not sufficient to cover the cost of leverage or if the Fund incurs capital losses, the return to common stockholders will be less than if the leverage had not been used. There can be no assurance that a leverage strategy will be successful during any period in which it is employed.

Management Risk: The Fund is subject to management risk because it is an actively managed investment portfolio with broad investment mandates. The Adviser will apply investment techniques and risk analysis in making investment decisions for the Fund, but there can be no guarantee that these will produce the desired results.

Closed-End Fund Risk: Closed-end funds may trade at a discount or premium from their net asset values, which may affect whether an investor will realize gains or losses. They may also employ leverage, which may increase volatility.

INFORMATION ABOUT DIRECTORS AND OFFICERS OF THE FUND (Unaudited)

Set forth below are the names and certain biographical information about the directors of the Fund. Directors are divided into three classes and are elected to serve staggered three-year terms. All of the directors are elected by the holders of the Fund’s common and preferred stock, voting as a single class, except for Mr. Burke and Ms. McNamara, who are elected by the holders of the Fund’s preferred stock. All of the current directors of the Fund are classified as independent directors because none of them are “interested persons” of the Fund, as defined in the 1940 Act. The term “Fund Complex” refers to the Fund and all the other investment companies advised by affiliates of Virtus.

The address for all directors is c/o Duff & Phelps Investment Management Co., 200 South Wacker Drive, Suite 500, Chicago, Illinois 60606. All of the Fund’s directors currently serve on the Board of Directors of two other registered closed-end investment companies that are advised by Duff & Phelps Investment Management Co.: DNP Select Income Fund Inc. (“DNP”) and Duff & Phelps Utility and Infrastructure Fund Inc. (“DPG”).

Self Virtus Investment Partners, Inc. 301 East Pine Street, Suite 500 Orlando, FL 32801 Age: 55	Vice President since July 2022	Senior Portfolio Manager of the Adviser since July 2022; Managing Director and Senior Portfolio Manager of Seix Investment Advisors, a division of Virtus Fixed Income Advisers, LLC (and predecessor firms) since 2011; Portfolio Manager of the fund now known as Virtus Seix Short Term Municipal Bond Fund since 2011, Virtus Seix Investment Grade Tax Exempt Bond Fund since 2018 and Virtus Seix High Grade Municipal Bond Fund since 2018; managed municipal bond investments since 1992
Dianna P. Wengler Robert W. Baird & Co. Incorporated 500 West Jefferson Street Louisville, KY 40202 Age: 62	Vice President and Assistant Secretary since 2014	Senior Vice President and Director – Fund Administration, Robert W. Baird & Co. Incorporated since 2019; Senior Vice President, J.J.B. Hilliard, W.L. Lyons, LLC 2016-2019 (Vice President 1990-2015); Vice President and Assistant Secretary, Duff & Phelps Utility and Corporate Bond Trust Inc. 2014-2021

DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN (Unaudited)

Pursuant to the Fund's Dividend Reinvestment Plan (the "Plan"), common shareholders may elect to have all distributions of dividends and capital gains automatically reinvested by American Stock Transfer & Trust Company (the "Plan Agent") in shares of common stock of the Fund ("Fund Shares") pursuant to the Plan; provided that such election is subject to the power of the Board of Directors to declare capital gains distributions in the form of stock (if such a declaration is made by the Board of Directors, all shareholders who do not elect to receive cash will receive the distribution in the form of stock whether or not they elect to participate in the Plan). Common shareholders who do not participate in the Plan will receive all distributions in cash (except as described above) paid by check in United States dollars mailed directly to the shareholder of record (or if the shares are held in street or other nominee name, then to the nominee) by the Custodian, as dividend disbursing agent. Common shareholders who wish to participate in the Plan should contact the Fund at 6201 15th Avenue, Brooklyn, New York, 11219 or call toll free (866) 668-8552.

The Plan Agent serves as agent for the common shareholders in administering the Plan. After the Fund declares a dividend or determines to make a capital gain distribution, if (1) the market price is lower than net asset value, the participants in the Plan will receive the equivalent in Fund Shares valued at the market price determined as of the time of purchase (generally, the payment date of the dividend or distribution); or if (2) the market price of Fund Shares on the payment date of the dividend or distribution is equal to or exceeds their net asset value, participants will be issued Fund Shares at the higher of net asset value or 95% of the market price. This discount reflects savings in underwriting and other costs that the Fund otherwise will be required to incur to raise additional capital. If net asset value exceeds the market price of Fund Shares on the payment date or the Fund declares a dividend or other distribution payable only in cash (i.e., if the Board of Directors precludes reinvestment in Fund Shares for that purpose), the Plan Agent will, as agent for the participants, receive the cash payment and use it to buy Fund Shares in the open market, on the New York Stock Exchange, other national securities exchanges on which the Fund's common stock is listed or elsewhere, for the participants' accounts. If, before the Plan Agent has completed its purchases, the market price exceeds the net asset value of a Fund Share, the average per share purchase price paid by the Plan Agent may exceed the net asset value of Fund Shares, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund. The Fund will not issue shares under the Plan below net asset value.

Participants in the Plan may withdraw from the Plan upon written notice to the Plan Agent and will receive certificates for whole Fund Shares and a cash payment will be made for any fraction of a Fund Share.

There is no charge to participants for reinvesting dividends or capital gain distributions, except for certain brokerage commissions, as described below. The Plan Agent's fees for the handling of the reinvestment of dividends and distributions will be paid by the Fund. There will be no brokerage commissions charged with respect to shares issued directly by the Fund. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open market purchases in connection with the reinvestment of dividends and distributions. The automatic reinvestment of dividends and distributions will not relieve participants of any federal income tax that may be payable on such dividends or distributions.

Experience under the Plan may indicate that changes are desirable. Accordingly, the Fund reserves the right to amend or terminate the Plan as applied to any dividend or distribution paid subsequent to written notice of the change sent to all shareholders of the Fund at least 90 days before the record date for the dividend or distribution. The Plan also may be amended or terminated by the Plan Agent upon at least 90 days written notice to all common shareholders of the Fund. All correspondence concerning the Plan should be directed to the Fund at the address on the back of this report.

The Plan permits Plan participants to periodically purchase additional shares of common stock through the Plan by delivering to the Plan Agent a check (or authorizing an electronic fund transfer) for at least \$100, but not more than \$5,000, in any month. The Plan Agent will use the funds to purchase shares in the open market or in private transactions as described above with respect to reinvestment of dividends and distributions. Purchases made pursuant to this feature of the Plan will be made commencing at the time of the first dividend or distribution payment following the second business day after receipt of the funds for additional purchases, and may be aggregated with purchases of shares for reinvestment of the dividends and distributions.

Shares will be allocated to the accounts of participants purchasing additional shares at the average price per share, plus a service charge imposed by the Plan Agent and brokerage commissions (or equivalent purchase costs) paid by the Plan Agent for all shares purchased by it, including for reinvestment of dividends and distributions. Checks drawn on a foreign bank are subject to collection and collection fees, and will be invested at the time of the next distribution after funds are collected by the Plan Agent.

The Plan Agent will make every effort to invest funds promptly, and in no event more than 30 days after the Plan Agent receives a dividend or distribution, except where postponement is deemed necessary to comply with applicable provisions of the federal securities laws.

Funds sent to the Plan Agent for voluntary additional share investment may be recalled by the participant by written notice received by the Plan Agent not later than two business days before the next distribution payment date. If for any reason a regular monthly distribution is not paid by the Fund, funds for voluntary additional share investment will be returned to the participant, unless the participant specifically directs that they continue to be held by the Plan Agent for subsequent investment.
